

Proven Donors Sell on November 22!

We will offer half interest in this powerful daughter of the \$380,000 Basin Lucy 3829 who currently is the third ranked proven dam in the Angus breed on the \$B index. The Basin Lucy family included many of the top females of last year's sale season, with valuations of \$440,000, \$362,000, \$210,000, \$185,000, \$150,000, and \$100,000. 1736 herself offers "off-the-chart" EPDs for growth and carcass traits, as well as a powerful, correct phenotype. Flushed one time, producing 13 quality embryos, she will sell bred to GAR Ultimate 6226 to calve in February. Just a two-year-old with a powerful January bull calf at side, Lucy 1736 offers a lifetime of earnings potential.

Coming to us as the top-selling pair of the historic Woodlawn Farms dispersion, 211 is best known as the dam of the \$52,500 Woodlawn Charge On, the top-selling bull of the 2005 National Western Bull Sale. 211 is also the dam of Black Woodlawn 2.0, and her maternal strength is evident through the strong, good-uddered females now in production by Charge On. Owned with Slagle Angus, Sargent, NE, 211 has been an important part of both embryo programs, producing 92 transferable embryos in 14 flushes. This powerful donor will sell fresh, with a September calf at side by the \$160,000 Connealy Forward, and ready to flush. We will also offer a fall-calving two-year-old daughter by GAR Retail Product, and a January heifer calf by TC One Way.

Semen and certificates always available on our herd sires by calling 573-581-1225. Most sires are also available through the ORigen marketing system.

Plan to be with us on November 22, 2008, as we unveil the newest generation of Sydenstricker Genetics. More than 500 head will sell.
