"TRUST is one of the more widely-used American sires in New Zealand and Australia, we love the bull and his progeny! TRUST is our type of bull — thick, easy doing, docile, perfect feet, full of red meat and safe to use on heifers."

— Guy Sargent, life member of the New Zealand Angus Association, who has been inspecting cattle in the USA every year since 1984 for importation to New Zealand.

"We have been using SydGen TRUST in our commercial AI program for 5 years. The calves from TRUST come easy and grow well. Our feedlot results show TRUST sired calves perform and grade choice or better. Our replacement Trust daughters milk well and have excellent dispositions, making them some of the best cows in our herd."

— Adam Uthlaut,

Co-owner/Operator Bear Valley Farms, New Florence, MO.
