

Sydenstricker Genetics Updated Information

Out of Sale: 58, 60, 63, 64, 67, 69, 72, 82, 84, 98, 101, 106, 146, 147A, 152A, 157, 159, 183, 209, 239B, 243A, 267, 280, 282, 307, 359, 364, 367

Lot 1A—Selling half interest and full possession

Lot 2A—lost her calf on October 20. 52 lbs.

Lot 3AA—Selling half interest and full possession

Lot 4—If the selection is made by December 8, buyer also gets the recipient dam. If the selection is made after that point, we will raise the heifer to weaning time, in mid-May, but buyer does not receive the recipient dam.

Lot 251A—Selling half interest and full possession

Lot 278A—DNA confirms parentage by AI sire, SydGen Rocky Road 2060

Lot 304A—DNA confirms parentage by AI sire, SydGen Platinum

Check your State Animal Health Regulations—the following females do not carry a legible OCV tattoo: 2A, 263, 337, 344

All animals in the sale that have pedigree risk for known genetic conditions have been tested and results are noted in the catalog. Below are results for the fall baby calves:

279A DDF
283A DDC
296A DDF
299A DDF
300A DDF

The Deal (page 17)
