The Deal (page 20)

The cows we would flush here at the buyer's option on December 7 & 8 are Lots 8, 10, 217, 220, 226, 231, and 234. See page 20 for details.

Current EPDs on the entire sale offering, as of November 17, are posted outside the office.

Yearling weights on the two Fall Bulls that were too young when the yearling data was collected on the others in the sale was done on October 12:

Lot 105 - YW 1282; ADG 3.12; Adj SC 38.1 cm; Adj Hip 50.0

Lot 158 - YW 1300; ADG 3.75; Adj SC 39.8 cm; Adj Hip 52.2

Also yearling weights have been processed for Fall Heifer Lots 204, 213B, 215B, 215C and 216C that were too young to measure with the other in the sale. Their yearling data was not included in the EPDs printed in the catalog.

Genomic profile results on the following lots were received after the catalog was produced and therefore were not factored into the EPDs printed in the catalog: 4, 6, 8A, 10A, 40, 59, 83, 85, 90, 98, 103, 105, 154A, 156, 223, 226A, 229A, 231A, 243A, 252A.

Lot 67 - Weighed 2,770 lbs. and was 57.5 in. on November 13. He is located in Run 1 of the Herd Bull Barn and will be the only animal to not go through the ring when he sells.

Lot 245 & 245A - OHP, test results pending

Lot 258A - DDP, test results pending
