SydGen Enhance • 18170041

- As this is being written, ENHANCE has debuted as the Number 2 \$B Sire on the main sire summary, but his amazing combination including growth, fertility, docility, \$W and \$F ensure he's certainly not a one-hit wonder! There won't be a large group of Enhance calves in this year's offering, but we will sell some very special individuals, both in the fall yearling and spring calf divisions. Several baby calves at-side of the fall pairs will also be included. We will also feature several paternal brothers and sisters to him by EXCEED.
- As always, this sale is a virtual dispersion of all our seven-year-old cows, along with a strong assortment of younger cows. SydGen Blackcap 1625 will be offered in her entirety, with a baby calf at-side by EXAR STUD 4658B. 1625 produced a \$32,500 fall yearling daughter, and a \$6,250 two-year-old pair in our 2016 offering and is an own daughter of the \$80,000-valuation SydGen DOC 9017.

SydGen Rock Star 3461 • 17820603

- The ROCK STAR fall yearlings just weaned here look like they will include several sale features. He is proving to be prepotent for growth, efficiency, volume and muscle and his daughters in production last fall impressed many visitors.

Make plans to stop by the farm anytime to preview this year's offering. As always, we'll sell about 500 head total, including herd bull prospects, donors and exceptional young females. This will be our 40th Annual Sale, celebrating 66 years in the Angus business. Your sale book will be included with the November *Angus Journal*®. Call 573-581-1225 for more information.
