History has been good to us. Our track record of high-accuracy sires speaks for itself.
SAF POWER FIX — The maternal grandsire of CA Future Direction, and a breed source of %Retail Product genetics.

VDAR NEW TREND 315 — Foundation of the "New Design" line, and a breed source for high maternal and scrotal genetics.

SAF NEUTRON — The maternal grandsire of BR Midland, and a breed source for high maternal and scrotal genetics.

SAF FAME — The breed's No. 2 .99 accuracy WW sire, under +1 BW EPD.

SAF FOCUS OF ER — The breed's top .99 accuracy WW sire, under +1 BW EPD.

SAF STRATEGY 9015 — The breed's top .99 accuracy WW sire, under +2 BW EPD.

SAF 598 Bando 5175 — The breed's top .99 accuracy YW sire.

From this base of sires, and many of their dams and sisters, along with the continual addition of outside genetics, tested and selected on Missouri fescue, comes our newest and most adaptable calf crop ever, bending the growth curves along with an underlying commitment to carcass quality. Stop by to see our current calf crop, and mark your calendar for November 20, 2004, as we unveil the newest generation of Sydenstricker Genetics.

Thinking about tomorrow, we'll be selling many of the first calves by LEACHMAN BOOM TIME, SYDGEN STERLING 0298, SYDGEN 1407 CORONA 2016, SYDGEN FOCUS 2088, SYDGEN ROCKY ROAD 2060, SYDGEN CONTACT, and SYDGEN PRESTIGE 1316, as well as progeny of some of the breed's most highly proven sires.

Always Available from SydGen
