29th Annual Production Sale

We invite you to our farm for our annual production sale which has become one of the highlights of the fall sale season, with more than 700 head selling in one day. Historically, this sale has produced some of the breed's greatest herd sires, all backed by the performance and adaptability of the SydGen cow herd. Make plans to be here on Friday to go through the cattle, and we'll treat you to a steak at our Friday night get-together, then start you out on Saturday with a Missouri Country Breakfast. Our sale book will be included with your November *Angus Journal* to keep the information as fresh as possible, and we expect it to be online in late October. The cattle are available for viewing at your convenience any time prior to the sale.
