

Consigning Our Best... to the Missouri Angus Futurity February 25-26, 2012 • Columbia, MO

Pictured on October 21, this two-year-old daughter of the popular SydGen CC&7 combines excellent phenotype and performance with breed-leading muscle, and sells with an October 3, 2011, daughter of SydGen Journey 7655 at side. She weighed 76 lbs. at birth and posted adj. WW of 685 lbs. to ratio 108, going on to post an adj. YW of 880 lbs. to ratio 111. Her scan data included a %IMF score of 6.64 to ratio 103 and an adj. REA of 12.9 to ratio 125, earning her a REA EPD in the top 1% of the breed. 9635 sells bred back to SydGen Googol, the \$25,000 top-selling bull of our recent production sale.

Chosen as one of the top CC&7 daughters in production to represent him in the ORigen sire directory, she stems from a cow family that originated at Gartner-Denowh Angus, Sidney, MT, and has had a long history of top performance at SydGen. Her dam served as a donor at SydGen, selling as a feature of our 2011 offering to Edmonds Angus, Russell Springs, KY. Her grandam served as a donor for us, C/S Angus, Pomona, MO, and Day Cattle Co., Marshfield, MO, producing a \$10,600 son and a \$10,000 daughter at the 2008 Missouri Angus Futurity. Her great-grandam brought \$14,000 to Riverbend Ranch, Idaho Falls, ID, and produced the 2000 NJAS Senior Heifer Calf Champion for Preston Pollard, Enid, OK.
