

Looking Forward to November 23! **41st Annual Production Sale** At the farm • Mexico, MO

As always, the offering will include a virtual dispersal of our seven-year-old cows, along with several younger cows that have already produced a good daughter to replace them in the herd. We will offer about 30 spring bred cows, 40 bred heifers and 45 heifer calves from the spring herd. One of the featured spring cows will be this daughter of the \$160,000 Connealy Forward from the Basin Lucy family that ranks in the top 1% of proven dams for WW, YW, \$F, \$B and \$Combined. She has a January heifer calf by the breed's Number 1 Main sire for \$C, SydGen Enhance, and is AI bred back to him, with possible natural service to SydGen Exceed 3223, the sire of Enhance and himself one of the very elite proven sires on the \$C index. Three progeny sold have averaged \$5,167 and a top granddaughter is retained. Dam was a flush sister to Basin Payweight 107S and 006S, and was top-selling cow in our 2012 sale at \$30,000 to Maifeld, Inc., Kesley, IA, where she has been a mainstay in their donor program.

In the fall division, we will offer about 60 fall pairs, including 10 two-year-olds, and more than 90 fall yearling heifers. The bull division will feature about 110 fall yearlings and 60 bull calves born in January and February. Progeny from ten different SydGen Sires that record indexes of +\$317 or higher on the new \$Combined (\$C) index will make this offering one of the most unique and futuristic offerings ever.

A unique part of the offering will be the dispersion of Chase Monte's SydGen II division. As he will no longer be eligible for Junior Angus shows, he will be offering several females, including spring and fall heifer calves, descended from his selections at Express Ranches, Seldon Rest Farm, Silveira Brothers and Allen & Layne Robinson.

This four-year-old Insight daughter pictured was Junior Champion Female at the 2016 MCA Junior Preview, and has developed a great production record. Her first son brought \$4,100 at 10 months of age, and she is averaging 108 WR to-date. Her January 17 heifer calf by Silveiras S Sis GQ 2353 will also be featured, along with a bred heifer by EXAR Blue Chip. She is AI bred back to SydGen Big Branch 6653, the 2018 Missouri State Fair Grand Champion Bull.
