Primrose 1220 is a stylish daughter of the high \$M sire Connealy Cool 39L, with 8 breeding values in the top 10% of non-parent heifers.

The dam of 8051, SydGen Primrose 3755, weaned 3 at 105 ratio at SydGen and is now working at Groce Angus, Albany, KY.

The grandam of 8051, SydGen Primrose 0681, was the top-selling pair of the 2013 Missouri Angus Futurity, totaling \$15,500 to Thunder Valley Farm, Elsberry, MO, and BCA Angus, Adair, IA.

The great-grandam of 8051, SydGen Primrose 5273, was a feature of our 2011 Production Sale at \$7,500 to Raven Angus, Colome, SD.

A highlight of our annual sale is always a "Buyer's Choice" Lot of one of our very best spring heifer pairs. This year's Choice will be between the Number 4 current dam SC daughter of Mead Magnitude or her heifer calf at-side, the Number 5 non-parent SC daughter of Connealy Cool 39L in the breed.

Primrose 8051 is a three-year-old whose first calf weaned at 109, then ratioed 120 for YW and 131 for RE. Her dam weaned 3 at 105 and they went on to ratio 106 at yearling and 109 for RE. She ranks in the top 1% for WW, YW, HP, CW, \$F, \$W and \$C, with 16 breeding values in the top 10% or higher. She will sell bred to De-Su Volunteer B122 and pasture exposed to HPCA Early Bird 65.
