Super 8 ..... (660) 385-5788  
America's Best Value Inn ..... (660) 385-2125  
Travelers Motel ..... (660) 385-2102

**Known Genetic Conditions:** All animals selling will be tested AM, CA, NH, D2 and/or OS Free, or have no direct pedigree linkage to carrier animals. Most have already been tested by catalog time. The others will be tested AMF, CAF, NHF and/or D2F by sale day, or they will not sell. Potential DD and OH carriers should have results by sale day, and will sell.

**Health:** Missouri, Iowa and Illinois are both Class Free TB and Class Free Brucellosis States. All cattle will sell with interstate health papers available on sale day. Many of the consignors maintain Certified Brucellosis Free Herds and several are on a John's testing program. Sydenstricker Genetics maintains Certified Brucellosis Free Herd #322. All bulls have passed a breeding soundness evaluation within 60 days of sale day, and those papers will accompany the bulls. All consignors maintain an acceptable herd health and vaccination program, and all bulls have been vaccinated for IBR, BVD and PI3, BRSV, Lepto-5 and Vibrio, and de-wormed and de-loused within 60 days of sale.

**Trichomoniasis:** Any non-virgin bulls and any bulls over 24 months of age are required to have a negative PCR trichomoniasis test within 30 days of the sale. They must not have had contact with any breeding age females for at least 30 days prior to that test.

In the event that a buyer wants to return a bull to the farm of the seller as a non-breeder, the bull must have a negative PCR trichomoniasis test before he is returned. A positive test for trich will void any breeding guarantees.

**Trucking:** We would like for buyers to move their bulls as soon as possible, but New Cambria Livestock Market will care for any bulls purchased for a reasonable time until trucking arrangements can be made. The sellers will also assist the buyers in caring for the bulls if necessary, and in finding reliable truckers if needed.

**Insurance:** Livestock insurance will be available sale day.

**Terms and Conditions:** Terms of the sale are cash. Cattle will sell under the Terms and Conditions as recommended by the American Angus Association. All persons who attend the sale do so at their own risk, and neither Sydenstricker Genetics nor New Cambria Livestock Market assumes any liability, legal or otherwise, for any accidents which may occur.

**Interests Retained in Bulls:** You will notice we are selling half revenue-sharing interest with full possession in some bulls. This means the bull is totally in your control as far as how you want to handle him, and you get 100% of the salvage value of the bull. Simply, the Seller has the right to half the semen sales revenue from the bull if sometime in the future, semen sales becomes a possibility. If you sell the bull to another breeder, the original Seller retains that half interest. If you purchase a half interest bull and wish to collect some semen on the bull as an "insurance policy" for your own use, that semen is 100% yours, unless the Seller is in contact with you and also wishes to collect the bull, either for within herd use, or to build a jointly-owned bank of semen for sale.

**Service sires to use on heifers** to use on heifers for the Show-Me Select Heifer Program must have a Calving Ease Direct (CED) EPD of +7 or higher, and be genomically tested on Angus GS or the Zoetis test.

Service Sires to use on heifers for the SydGen Influence Sale to be held November 20, 2021 must be +1.0 or lower BW EPD OR +7 or higher for CED EPD, and must carry the SydGen prefix in their name or be graduates of a SydGen Influence sale.

**Semen** is available on most SydGen Sires either direct from us, or through the ORIGIN network.

**DVAuction**  
Broadcasting Real-Time Auctions

Go to [www.dvauction.com](http://www.dvauction.com) for information on how to sign up for on-line bidding.

**ANGUSMEDIA** EPDs contained in the hard copy of this sale book were current as of print date. Digital versions of this sale book can be viewed online at [www.angus.org](http://www.angus.org) and will have EPDs updated every Friday with the exception of EPD references in footnotes and photos. Any PDF downloads from the website will contain EPDs current as of the date downloaded. *References: American Angus Association®, AHIR®, AngusLinkSM, CAB®, Pathfinder®.*

Cooper Ervin

Dear Cattlemen,

Welcome to our Seventeenth Annual SydGen Influence Spring Sale. As many of you know, we have always sold our fall yearling bulls and January bull calves in our Annual Production Sale in November. We appreciate the acceptance of commercial cattlemen of our program and our sale offerings through the years. We are proud to include these contributing breeders who have used our Genetics to create a larger group of SydGen influenced bulls to offer to the public.

The February-born SydGen bulls selling today were weaned on October 5, with yearling weights, hip heights, scans, scrotal and foot scores all taken on January 28. They were fed silage with a commodity mix and grain added on a 20 acre fescue paddock with free choice grass hay. After yearling weights were taken, they were continued on the same ration, along with forced exercise to help condition them for pasture use. The average daily gain was 3.21 lbs./day over 115 days, and they had .26 inch average ribfat cover.

This sale is another step toward increasing the number of SydGen influenced sires in the Midwest's good commercial herds. Over the years, we have brought many outside bloodlines into our herd, and tested them with the extremes of Missouri's climate and fescue challenges, and we have seen differences in the adaptability. We have tried to mold the bloodlines that work into the herd sires we produce and are proud of how well they've done for others. The contributing breeders selling today are performance-minded, with a long-term commitment to breeding better Angus cattle, and we think you will be pleased with the offering.

Ben Eggers

Eddie L. Sydenstricker

**BLAIR CARNEY ANGUS**

Blair and Erin Carney  
1060 105th Street  
Adair, IA 50002  
(641)-740-5016  
blairjcarney@gmail.com

Blair ran commercial cows for many years, and that herd is now used as recipients for progeny of the BCA donors. A small base of registered Angus cows was started in 2008, with the goal of developing a high quality product, incorporating several SydGen sires both AI and natural. They believe their embryo transfer program will increase their quality to an even higher level.

**BOOT HILL FARMS LLC**

Kent Brown  
PO Box 37, Cameron, MO 64429  
(816)632-8108  
kbrown@nwepc.com

Growing up around farming, Kent set goals of being in the cattle business some day, and bought some commercial cows in 2005. In 2010, he purchased his first registered Angus, and now is up to 50 head of registered Angus cows. Kent is building a strong base of Angus genetics, utilizing AI and ET as well as natural service in their breeding program. For more information, see [www.boothillfarms.com](http://www.boothillfarms.com).

**BUSCHMEYER ANGUS FARM**

Tony and Sherri Buschmeyer  
4049 Hwy EE  
Owensville, MO 65066  
573-259-3686  
catpaws@fidnet.com

The Buschmeyers' have been utilizing embryo transfer and artificial insemination to improve the quality of their herd since they acquired their first registered cows in 2014.

**BRANDT FARMS**

Weston, Bree, Kenzie, and  
Hollynd Brandt  
2542 Mulberry Ave.  
Corning, IA 50841  
(641) 322 3605  
Wbrandt09@gmail.com

Brandt Farms has been raising Angus Cattle since 1986. Weston has been on the farm full-time assisting his father, Kirk, since the completion of his education in 2012. They market between 30 and 40 bulls off the farm each year. They used their first SydGen genetics in 1993 and they still have heavy influence in their herd today.

**COLLIER CATTLE CO.**

Colten Collier  
Dongola, IL  
(618) 697-0404  
Colliercattle4@hotmail.com

Alongside his brother and father, Colten farms and runs cows in Southern Illinois. Their herd is composed of 75% commercial and 25% registered Angus and Simmental cows. They utilize AI and ET and have been SydGen customers since 2011.

**CHR ANGUS FARMS**

Chad and Haley Raaf  
1950 Miller Rd.  
Owensville, MO 65066  
(573) 619-9873

CHR Angus Farms was established in 2018. Chad and Haley have aggressively utilized AI and ET and continually strive to provide cattle of utmost quality to their customers. They have consigned bulls and females to various consignment sales, and this is their first year contributing to the SydGen influence sale.

**CMS ANGUS**

Curtis and Michelle Smith  
8090 County Rd. 403  
Fulton, MO 65251  
(573) 220-1149  
Twomules68@hotmail.com

CMS has raised Angus cattle since 2009 on their family farm. They maintain a herd of about 25 females. They are always trying to improve their genetics and put a special emphasis on fertility and disposition.

**JIM DALBEY**

Colt McIntyre  
21131 Danube Rd.  
Burlington Junction, MO  
(712) 303-1182

The Dalbey family began their venture in the registered Angus business in 1941. Their primary focus at that time was to produce bulls that work for the commercial cowman and that focus hasn't changed in 81 years. Colt McIntyre joined the operation 11 years ago and has been a great asset. Colt brought a young outlook and is now a full partner in the operation.

**EGGERS STOCK FARM**

Richard, Marica and Gabe Eggers  
734 CR 614  
Jackson, MO 63755  
(573) 225-7705  
rickmaricaegggers@gmail.com

Eggers Stock Farm has been in the registered Angus business since 1964, growing from early involvement in 4-H and FFA. They currently run about 75 cows, mostly registered Angus. Market steers are sold to USPB, and genetic selection emphasizes performance, carcass traits and fescue adaptability. Certified Brucellosis Free Herd #750.

**GRAUPMAN ANGUS**

Kris and Tracy Graupman  
4152 CR 230, Palmyra, MO 63461  
Home: (573) 769-2956  
Cell: (573) 248-4958  
kgraupman@centurytel.net

In the registered Angus business for 38 years, Graupman Angus sells 30-35 bulls per year. They have consigned several top-selling and A- graded bulls in the NEMO BCIA and the MO BCIA sales. Kris is a past President of the Missouri Angus Association, and has consigned to this event every year since its inception.

**H & H LAND & CATTLE**

Lance Haflich  
6846 Hwy 5 N.  
Midway, AR  
(870) 405-1110  
hhlandandcattle100@gmail.com

Lance has been in the cattle business all of his life, growing up with commercial beef cows, and began adding registered Angus cows in 2008. He has consigned to the Four States Angus Sale and to the Heart of the Ozarks Angus sale at West Plains, MO for several years.

**LENZ FARMS**

22480 Gilbreath Rd.  
Prairie Home, MO  
(660) 537-0603  
blenz1964@gmail.com

Bruce and Kathy Lenz have assembled a herd of elite females from across the country in the past few years. Embryo transfer is used extensively in their herd, 90% of their calf crop are derived from their ET program. Like many of us, Bruce and Kathy enjoy meeting other breeders and would welcome anyone to stop by for a farm visit at any time.

**LP ANGUS**

Kenny and Landon Petree  
Bunceton, MO  
Kenny Petree 660-473-1100  
Landon Petree 660-888-9601

LP Angus began in 2016 with the purchase of Landon's first registered Angus cow and has quickly grown to a herd of 50 registered females. Kenny grew up on a dairy and row crop farm and has been in the commercial cow business since 1988. Kenny along with his 3 sons raise row crops and run 350 commercial cows in addition to the registered operation.

**MERSHON CATTLE LLC,  
BUCKNER AND  
APPLETON CITY, MO**

Bruce and Tracey Mershon  
816-289-3765 (C)  
31107 Lake City Buckner Road  
Buckner, MO 64016  
bmershon@lansingtradegroup.com  
www.mershoncattle.com

Mershon Cattle is a commercial cattle operation run by the Mershon family in Jackson County, Missouri. They have been using Sydgen bulls and semen since 2004. Their herd consists of Angus based, cross-bred cows that have been AI bred using Hereford and Charolais semen. Steers are retained and sold on the grid. Brothers of the heifers offered today graded 98% choice or higher. All heifers offered are from Mershon Cattle's home-raised cows. Mer-shon Cattle LLC was awarded the 2013 Missouri Angus Association Commercial Producer of the Year Award. In 2019, they were awarded the highest honor possible for a commercial cattle breeder, the BIF Commercial Breeder of the Year Award. Bruce is currently President of Missouri Cattlemen's Association. Tracey currently serves on the Missouri Beef Industry Council. Bruce and Tracey have consigned heifers to the Fall SydGen Influence sales for eight years, and this is their fourth year bringing heifers to this sale.

**O/B ANGUS**

Matthew Brandt  
4302 Maestown Rd  
Fults, IL 62244  
(314) 223-1816  
obangus@gmail.com

Matthew, Gretchen and their sons Hudson and Parker are the 3rd generation to raise pure-bred cattle on their pastures in SW Illinois. O/B Angus strives to produce functional Angus cattle that balance worry-free calving with efficient growth and carcass quality through the utilization of the most advanced genetics available in their Embryo Transfer and AI program. They currently run about 50 cows in their predominantly fall calving operation.

**WALLIS ANGUS FARMS**

Billy and Jenny Wallis  
310 W. Cedar Hills Dr.  
Millersville, Missouri 63766  
(573)837-2525  
wallisangusfarms@hotmail.com

Wallis Angus Farms(WAF) is located near Millersville in Southeast Missouri. Billy Wallis has strived to breed Angus cattle that perform in the field and feedlot. The operation is based on decades of combined experience in selecting, breeding, and raising quality beef. From raising and showing steers and heifers in 4-H as a youth, helping and now being part of the Show-Me-Select Heifer (SMS) program from its beginning, high performing cattle are at the heart of their family business. Billy serves on the board of the SEMO Cattlemen's Association. He and his family run approximately 100 head of commercial Angus cattle and 15 head of Registered Angus. They currently market 25 to 30 head of SMS qualified heifers annually at the local Show-Me-Select sale or off the farm. Their best bull prospects are available for sale through consignment to quality performance sales or private treaty.

Dam of  
Lot 10

Dam of  
Lot 11

**The \$ Indexes**

We now have six \$ Indexes available on Angus cattle. \$Weaning is a measure of the economic impact of four primary areas affecting animals from birth through weaning. Those four areas are birth weight, weaning weight, maternal milk, and mature cow size. It assumes an 80-20 mix of cows to heifers. \$Feedlot is a measure of the value associated with post-weaning growth along with feed efficiency. \$Grid is actually a measure of total end product value on a quality grid, using ultrasound and carcass data when both are available. \$B is a combination of YW, CW, DMI, marbling, ribeye area and fat thickness into a terminal post-weaning value.

\$Maternal Weaned Calf Value, just released in June, 2019, includes CED, CEM, WW, Milk, HP, docility, mature weight, claw and angle EPDs to predict the profitability differences on a weaned calf basis.

\$Combination is the other new index. It attempts to measure the combined economic impact of an animal on a dollars per head basis. It is computed by multiplying the \$Beef Value by 1.297, and adding that number to the \$M value. (This approximates a 20% replacement rate.)

With any index, there are assumptions made which may or may not fit your particular operation. For your own unique operation, you may prefer more or less emphasis on \$M and \$B to develop your own Combination index.

We do believe the \$C index is suited very well for many of our customers in the midwest, and we are including it in this sale book on every animal. We are not printing \$G on each lot, as we think most of you prefer to look at the EPDs themselves for the four carcass traits.

On sale day, the most current EPDs and every bio-economic index will be posted for every animal, as of April 8, 2022.

H & H Land and Cattle

Out of a 1682 donor that originated in the Shaw Cattle Co. program in ID, this Enhance son offers a complete EPD profile with a \$C in the top 25% of the breed. Retaining several flush sisters.

## Tips on Using Yearling Bulls

Yearling bulls have many advantages: fresher genetics, better selection, etc. Studies have shown bulls used as yearlings sire more calves in their lifetime than bulls held until they are two. Also, buyers who manage them well can often re-sell them as three or four-year-olds and recover their purchase price.

### A few tips from our experience:

1. If your group has too many cows or heifers for one yearling bull (we suggest 10-15), don't put all the bulls out at the start of the season. If you turn them all out at once, they are likely to all lose weight and perhaps all go temporarily sterile at the same time. If you have two bulls, put one in for two weeks, then pull him and turn out the other one. The forced rest and a little feed and fly control will make him stronger. Using the every two week rotation, if one bull is a stronger breeder, he will always be covering what the other bull missed. Furthermore, running multiple bulls in the Midwest often results in broken penises; it's just different out West where the pastures are so much larger.

2. A yearling bull should not be out in a Missouri pasture from mid-July through August. Bulls generally shed their first two incisors about 18-20 months of age. That combined with fescue endophyte and heat stress could cause the bull to get so nutritionally stressed that it will take a long time to get him back in shape.

### Graupman Angus

A fancy pair of younger heifers sired by a good Rock Star son.

**98-104**

## 35 Two-Year-Old Commercial Spring Pairs, sorted into about 7 groups of 5

### Mershon Cattle LLC

These two year old heifers have calves at-side that will be 10-30 days old on sale day, sired by SydGen natural service bulls. All the heifers will be black or black baldies. The sires of the calves will be sons of SydGen Multi Tool 2432, EXAR Stud 4658B, Connealy Cool 39L, SydGen Liberty 3748, Bakers Northside 6007, SydGen Merit 6553 and SydGen Enhance.

The heifers' steermates were fed at Darr Feedlot, Cozad, NE where they graded 94% Choice or better with 64% average dressing percentage. Mershon Cattle LLC has a comprehensive health program for their cowherd. In addition, the baby calves at-side will have Inforce 3 prior to sale time, and a dose of Draxxin the day of the sale.

## 3 Two-Year-Old Commercial Angus Spring Pairs

### Blair Carney Angus

These should calve in mid-March, with one bred to HF Equity 0050 #19856871, and two to BCA Exceed 8136 #19346837, the sire of the Lot 28 bull selling today.

**106**

## 3 Two-Year-Old Commercial Angus Spring Pairs

### Blair Carney Angus

All three have February bull calves at-side, sired by HF Equity 0050 #19856871, BCA Exceed 8136 #19346837 and Deer Valley Growth Fund #18827828.

SydGen Bang GA 0346 - Service sire to Lots 90 & 92.

You, the commercial cattlemen, are the foundation of the beef industry.

Thank you for your support of the SydGen program, and these contributing breeders who have joined us to present the sale offering today.

If there is anything you would like us to do differently, please let us know. We want you to be successful, and we want to supply you with the genetics and the information that will aid your success.
