## WELCOME TO SYDENSTRICKER'S 47<sup>TH</sup> ANNUAL PRODUCTION SALE

*Congratulations Chase and Margo on your marriage September 13.*

**FOX HASS, PAIGE BRISCOE, BRITTON BLOCK, LEE ANN SYDENSTRICKER, KIM SYDENSTRICKER-MONTE, CHASE AND MARGO MONTE, CONNIE SYDENSTRICKER, EDDIE SYDENSTRICKER, SYDNEY BRISCOE, CAMILLE SMITH AND BLAKE BRISCOE.**

Dear Cattlemen,

Welcome to our 47th Annual Production Sale as we celebrate 73 years in the Angus business. We thank all the customers, supporters, competitors and employees who have been important to us along the way! We are proud of the Angus history that has been made here, as well as our sales history that includes some of the breed's most valuable animals, yet also includes cattle that "anyone can afford," to quote Ralph Sydenstricker.

The demand for CAB® and Prime beef continues to be a bright spot in the beef industry. No other country in the world can compete with us in the production of high quality beef. That is our strength in the world marketplace. Investing in quality breeding stock today helps you take full advantage of the better prices we're now seeing.

We believe the Angus cow is the most efficient in the business, and the breed will continue to dominate the genetics of the commercial cow herd. Our EPD system has allowed us to characterize Angus bulls very specifically, so when a commercial producer buys that bull to do a certain job, he will do that job. That reputation has been the driving force for the popularity of the Angus breed in the commercial sector today. The on-going weather stresses of the last several years reinforces the flexibility of the Angus cow.

We regard our position in the beef industry as research and development, finding and proving the sires that can force their way past the genetic antagonisms inherent in beef cattle production. We like to do that with as much diversity of bloodlines as possible. However, we continue to strongly pursue multi-trait excellence, not giving up the progress we've made solely to bring in new blood. These cattle need to excel on the measurable EPD traits to insure our customers' profitability, and they must be sound, fertile and efficient. The use of multiple bloodlines just gives us and our customers more options to select from, and more genetic diversity for the breed.

As always, we will do our best to inform you, our customer, with all the information we can to help you make good buying decisions. All breeding animals selling are either tested free of AM, NH, CA and D2, or have no pedigree risk, and that pedigree is substantiated by years of parentage verification. All animals at risk for M1 and DD are tested, and sell as is.

As time has gone on, we have seen the accuracy of genomic evaluations increase, and every animal under five years of age that sells, is genomic tested.

We hope you will be with us November 22nd to give us your evaluation. Come early Saturday morning and enjoy our Missouri country breakfast before the sale. If you cannot be here, our sale will once again be broadcast live on the internet by DV Auction.

For more information on any of the cattle in this offering, or if we can assist you in making travel arrangements, please call the farm office at (573) 581-1225 or the dealership office at (573) 581-5900.

We look forward to seeing you!

Sincerely,

Eddie L. Sydenstricker Ben W. Eggers

- Owned with Edwards Ranch, Denton, MT
- Since he topped our 1996 sale at \$68,000, FOCUS had a very successful career. This long-time Pathfinder Sire left a legacy of combining calving-ease with explosive growth and fertile, functional daughters. Many thousands of descendants are still a strong force in the breed today. Semen \$10

S A F FOCUS OF E R

**About the Cover: This year we pay tribute to two very important sires who were laid to rest this year, Enhance and his sire, Exceed. Both were buried here on the farm where they were born.**

## SydGen Herd Sires

Our herd sires, including some not referenced on this and the next 11 pages, are responsible for over 154,000 progeny in the AHIR database, of which over 62,000 have ultrasound scans, along with over 6,000 progeny on Australia's Breed Plan. More than 48,300 daughters of these sires have had calves reported on AHIR, and over 3,800 progeny have been reported through carcass evaluation. Genomic scores have been done on over 37,100 progeny. We own 53 sires used widely enough to earn a place on the 2025 Sire Evaluation Report.

Most of these sires are available to you via artificial insemination, and semen can be ordered through our farm office, from ORIgen Cattle Services, Huntley, MT, and from many local distributors, including ABS representatives, on many sires. We have semen prices printed at the end of each footnote on sires available directly from us, and all AI certificates are priced at \$40, unless otherwise noted. If you would like to pick up semen on sale day, please let us know in advance so we can have ample supplies.

Some of these bulls will be on display sale day. Others are at their respective co-owners' farms, depending on ownership of the possession interest. All of the SydGen AI sires do see natural service duties; we think it's important for proper development of the bull.

## Our Mission

"To insure the success of our customers by developing predictable Angus genetics that excel in all the economically important traits, including carcass quality and cutability, feedlot performance, roughage conversion, maternal traits, fertility, disposition and soundness – thus allowing them to consistently and profitably produce a high percentage of finished cattle that meet Certified Angus Beef™ specifications."

Ralph Sydenstricker began his farm machinery business in 1944 with an International Harvester dealership in Paris, MO. One of his salesmen, Grant Dickson, came in one day in the summer of 1952 and told Ralph he believed he could sell the Super C Farmall tractor on the lot, if Ralph would take two registered Angus cows with heifer calves on the trade, and allow the customer \$1,000 apiece for them. Ralph, Grant, and 12-year-old Eddie went to look at the cows and close the deal.

Eddie and his sister, Betty Jo, became very active showing in 4-H and FFA. Eddie was involved in forming the very first junior Angus association in the U.S., when, in 1956, the Missouri Junior Angus Association was organized at Monroe City, MO. Eddie served as the first President, assisted by Ronnie Rodgers, vice-president; Fred Blades, secretary; and Liz (Moore) Coon, treasurer. Lyle Haring, regional manager for the American Angus Association, and Ed Stout, Missouri Angus Association fieldman, were instrumental in this project. Later, Eddie was selected by Dean Hurlbut, the newly appointed Director of Activities at the American Angus Association, to participate in "An Angus In Your Future," a film produced by the Association to encourage youth to get involved with Angus cattle. Eddie continued his involvement in FFA, serving as State Secretary in 1957-58, and receiving the American Farmer degree in 1960.

Ralph teamed up with Jim and Ray Blades in 1959 for their first production sale. Col. Roy G. Johnston was the auctioneer, and the ringmen were Lyle Haring, Mark Dempsey, Wes Hays, Veryl Jones, Ed Stout, and Nick Iman. Ralph continued to have production sales through the sixties. The top bull in his 1964 sale was a son of TA Ekonomist 7 that sold for \$1,000. Ralph was elected President of the Missouri Angus Association in 1966. In 1960, the family moved the cattle to Mexico, MO, as Ralph purchased the John Deere dealership in Mexico. Eddie and Connie were married in 1961, and lived in Macon from 1965 to 1969, managing the International dealership they acquired in 1965.

In the seventies, Ralph stepped up the pace a bit, and, looking for a little more growth, imported several heifers and bulls from Canada. Twenty females with a total price tag of \$21,980 were brought to Mexico, MO, in December 1974. He found Happyvale Olympic 012H at the side of his dam in June, 1976, and returned later to Canada to make him the top-selling bull in the Happyvale sale at \$20,000.

While Ralph was expanding the cow herd, Eddie and a talented mechanic named Van Botkins designed and campaigned the Cajun Queen pulling tractor, winning every National Championship there was. Eventually, John Deere Engineering at Waterloo, IA, took the engine from this tractor to develop the 466 cubic inch engine that was used in all the 40 and 50 series tractors made by John Deere for nearly twenty years.

Ralph decided he needed some help with the quality herd he was putting together, and, in search of a herdsman, scheduled Wayne Kestler to come to Mexico for an interview on January 6, 1977. Wayne Kestler did come to Mexico that day, as did many other Angus friends, but it was not to discuss the position of herdsman, it was to attend the funeral of Ralph Sydenstricker.

Eddie, busy with the dealership for many years, now had a decision to make, regarding the farm and the cattle. Obviously, he chose to continue the Angus operation, known as Sydenstricker Angus Farms, and to hire Wayne Kestler as herdsman.

Eddie wasted no time. In March 1977, he acquired Eisa BAS 89 for \$2,000. She produced the \$33,000 SAF Windwalker and the \$12,000 SAF Windjammer during her tenure here. On June 21, 1977, Eddie acquired an interest in Happyvale

Marshall Pride 013G, known as "Mighty Marshall." He was owned with Erdmann Angus, Wetonka, SD, and Jim Baldridge, North Platte, NE, and sired the Grand Champion Carload of Bulls at the 1978 National Western, along with the top selling pen of heifers at the 1978 Denver Foundation Female Sale. Although Ralph had had several sales over the years, Eddie began the Annual Production Sale in November of 1978.

An early female who left a mark on the entire Angus breed was Schearbrook Wendy N023, purchased for \$5,100 in June 1978. A son was grand champion and top selling bull at the 1981 Missouri State Sale, and she produced many other show ring champions.

Through the seventies and early eighties, Eddie and Connie's daughters, Kim and Lee Ann, showed extensively in junior shows throughout the country, perhaps highlighted by Lee Ann's last show heifer becoming the farm's first Missouri State Fair Grand Champion Female in 1984, with a descendant of Wendy. Kim and Lee Ann were both active in the Missouri Junior Angus Association their father helped start, and both served as officers.

Eddie served as treasurer of the Missouri Angus Association for many years, and served three years on the American Angus Association Board of Directors. In 1995, Eddie received the Livestock Person of the Year Award from the University of Missouri Block and Bridle Club.

The first Annual Production Sale was held in November 1978. The sale was managed by National Livestock Brokers, and the auctioneers were Jim Baldridge, Nick Iman, and Al Conover. The ring help that day were Veryl Jones, Tim Lackey, Paul Gibbs, Mark Dempsey, and John Barton, as 141 lots averaged \$1,332. In 1978, Don Simpkins joined the crew until his retirement in 1991.

One of the most talked-about bulls of his era was Cracker Jack Baros 2459, better known as "Prime Rate." In the 1981 sale, the first Prime Rate calves were featured at the most successful sale held to that point. Col. Ray Sims and Col. Jim Baldridge cried the sale, with Veryl Jones, Dean Pike, Greg Garwood, Tim Lackey, Mark Dempsey, Lyle Eiten, John Barton, and "Doc" Smith working the ring. National Livestock Brokers managed the sale, and John Rudolph and John Ponticello served as consultants.

Bill and Li Bowman were hired in 1981, staying through 1989, and had a significant impact on the program during the eighties, exhibiting 34 State Fair champions in 1987 alone. Ben Eggers joined the team in 1982. Many other good employees have come and gone through the years, including Charley Boyd, Lewis Moten, Dale Randolph, John Ripperger, Randy Graham, Bonnie DeYoung, Todd and Tracy Ragsdale, Ed and Mandy Raithel, Dan Sharp, Allen Robinson, Randy Ray, Ken Rhodes, John Schneider, Travis Sharon, Brent Schuering, Matt Gruber, Nelson Groves, Josh Lewis, Stacy Loyd, Pat McCarty, Nick Schafer, Dave Pickerell, Suzy Harrison, Aaron Ishmael, Anthony Carey, Chris Beedle, Matt Rouse, Tyler Allen, Eric Allen, Sammy Breid, Jennifer Russell, Brad Porter, Brittany White, Roger Cranmer, Ryan Meyers, Cole Bass, Cash Prestien, Joe Strauss, Kyle Tate, Brad Slavens and Cooper Ervin.

EDDIE SYDENSTRICKER WITH HIS 1956 MISSOURI STATE FAIR FFA SHOW GRAND CHAMPION, VIOLA K.

MISSOURI STATE FFA OFFICERS, 1957-58. EDDIE SYDENSTRICKER, SECRETARY, SEATED FOURTH FROM LEFT. IN 1960, EDDIE RECEIVED THE AMERICAN FARMER DEGREE.

The eighties were an exciting time at Sydenstricker's, as the foundations were laid for many of the cattle we still have. The purchase of three females from the mating of Brost Power Drive to Leachman Lass 1004, two of them as heifer calf pregnancies and one as a \$19,000 heifer calf, gave us the base to produce such herd sires as SAF Fame and 5175. Also from Jay and Les Leachman, an \$18,000 heifer named Leachman Royal Queen 2027 founded the Royal Queen family here, eventually producing SAF Royal Queen 5084. A Rito 2100 GDAR daughter, Pride Queen T 4155, purchased at the NILE, put her stamp on the Angus industry with a flush of calves born in 1986 that included SAF Power Shaft 6021, the \$33,000 SAF Pride Queen 6013, and the record-holding highest selling bull and heifer to ever sell at a Missouri State Sale, the \$12,500 SAF Power Fix and the \$40,000 SAF Pride Queen 6012. Then, in 1989, in Manhattan, MT, we outbid three competing syndicates to acquire two-thirds ownership in VDAR New Trend 315, the bull who defined multi-trait superiority in his day, and set the tone for the Sydenstricker program through today.

In 1990, we shocked the Angus community by scheduling the Dispersion minus Fifty sale, where we sold down to 50 registered females in what turned out to be our highest-grossing sale to that point, proving that truth in advertising can work, and that at least 67 bull calves can be sold in Missouri on one day. No sale was held in 1991, so we used the extra time available to scour the country for fresh genetics to bring in. The deal to "pick" six heifers from the entire Gartner-Denowh heifer calf crop, on an alternating basis, turned out to be one of the best things we've ever done, as females like GDAR Forever Lady 178 and GDAR Forever Lady 246 have proven their value many times over.

Throughout the nineties, we put more and more emphasis on the commercial side of the industry, stepping up our carcass evaluation of herd sires, exploring new programs that could benefit our commercial customers, supplying more and more useful performance data to our customers through our sale books, and creating the Sydenstricker Influence Sales. We published our first Herd Sire Directory in 1993, the same year a calf named SAF Fame topped our sale at \$27,000, and actively pursued the direct semen sale market. We had the first 100-head bull sale in Missouri in 1996, where we also sold the top selling bull calf in our history, SAF Focus of ER, at \$68,000. In 1997, we received the CAB Seedstock "Commitment to Excellence" Award, primarily for our focus on carcass traits equally with performance traits. SAF Fame became the second most heavily used bull of the breed in 2000.

In 1993, Ben Eggers was elected President of the Missouri Cattlemen's Association, and served on various committees as well as the Board of Directors of the National Cattlemen's Beef Association. In 1998, he was elected to the Board of Directors of the American Angus Association, serving as President in 2006. At the Annual meeting in Louisville, Ralph was inducted posthumously into the Angus Heritage Foundation in 2004, and Eddie was inducted in 2006.

When we entered the new millennium, we took a big step. Wanting a distinctive prefix, and to send the message that we are selling genetics, not just cattle, we changed our name to

Sydenstricker Genetics. In 2001, the first bull to sell with the new SydGen prefix, SydGen Refocus, broke his full brother's record to become our top selling bull ever, at \$100,000 for one-half interest.

At the 2001 Beef Improvement Federation meeting, we were awarded the Seedstock Producer of the Year Award, the most prestigious award in the seedstock industry, signifying the national impact of the Sydenstricker program. We also joined with several other seedstock partners to found ORlgen, Inc. Ben served on the Beef Improvement Federation Board of Directors for eight years, and was elected President in 2011. In 2013, he received the Continuing Service Award from BIF, and in 2018 was named the Missouri Cattlemen's Association "Cattleman of the Year." Ben was given the 2022 Missouri Angus Pioneer Award.

We have been a tour stop on the National Angus Tour and the BIF Tour, as well as hosting part of the LEAD Conference in 2011. Eddie and Connie were inducted into the Honorary Angus Foundation in 2013 for their work in support of Angus youth.

Eddie received the Missouri Angus Breeders' Pioneer Award in 2014, the Allied Industry Award from Missouri Cattlemen's Association in 2015, the Livestock Person of the Year Award from the University of Missouri Block and Bridle Club in 2017, and the Honorary State Farmer Degree by the Missouri FFA Association in 2022.

Sydenstricker Nobbe Partners of Missouri and Illinois has received the top performance award in Leaders Club, John Deere's highest award, for the past three years. In 2021, they were named "North American Farm Equipment Dealer of the Year" by Farm Equipment magazine. Expansion has increased the last few years, with 42 locations in five states now included. The SNP Career Academy has developed into a successful venture, and is the only one of its kind, designed to keep qualified technicians available to SNP stores.

Daughters Kim and Lee Ann are both involved in the dealerships, with Kim doing PR from the Mexico location, and Lee Ann doing Marketing from St. Louis. Grandson Chase Monte, Kim's son, exhibited at nine Missouri State Fairs, and seven National Junior Angus Shows, winning the Grand Champion Carcass Steer in 2014 and the Grand Champion bred-and-owned Carcass Steer in 2016, along with a class-winning heifer. Chase was President of the Mexico FFA Chapter in 2016, graduated from the University of Missouri in 2021, and is now Equipment Operations Manager for Emery Sapp & Sons. Blake Briscoe graduated from Vanderbilt University with a B.S. in Finance and is now a Vice President at Wellspring Capital Management, New York, NY. Granddaughters Sydney and Paige Briscoe graduated in 2019 from Ole Miss. Paige is now the Brand Manager at Citadel Partners, Dallas, TX and Sydney is Marketing Assistant/licensed realtor at Janet McAfee Real Estate, St. Louis, MO.

From the early Sire Evaluation reports printed twice a year, to today when a new National Cattle Evaluation is on-line every Friday, along with genomic-enhanced EPDs, bio-economic indexes, and the ability to DNA test for parentage and genetic recessives, we have seen technology change the face of the seedstock industry. We continue to keep this herd at the forefront of the Angus breed, and supply our customers the genetics and the customer service they need to compete.

Our most heavily used AI sire in history has been SydGen Enhance, primarily because of multi-trait superiority. VDAR New Trend 315, born 37 years ago, was labeled with that phrase during his strongest days as an AI sire, and was our first bull to gross over \$1M in total semen and certificate revenue. Enhance traces to 315 nine times in his extended pedigree. As this goes to press, Enhance has over 19,000 progeny in the Angus database.

EDDIE AND VAN BOTKINS WITH THE ORIGINAL "CAJUN QUEEN," PERHAPS THE MOST FAMOUS PULLING TRACTOR IN HER DAY.

- Owned with Spring Cove Angus Ranch, Bliss, ID
- "Whiskey" has proven himself as an exceptional outcross sire of muscle, growth, and performance. He died unexpectedly from a hoof infection that got into the bone tissue. Despite limited usage, he is a dominant progenitor of all-around merit. Even though he would be over 20-years-old now, he still ranks in the top 10% for HP and top 20% for Milk.

- Owned with Hoover Angus Farm, Tingley, IA
- CC&7, named for his two closest sires and the 7 SydGen donors in his pedigree, was the top-selling bull in our 2006 Sale at \$39,000 for half-interest. With 9,200 progeny now on record, his prowess for adding DOC, REA, HP and Milk is legendary. His descendants consistently show up as some of the most powerful genetic improvers in the breed.
- Semen \$75

- Owned with Bear Valley Farms, New Florence, MO.
- We went back and used this 12 year-old sire last winter, and have some fall calves. We had experienced daughters with excellent udders as well as surfacing strong for CED and terminal traits. The new EPDs for Teat and UDDR have come in as expected. Dam is a maternal sister to SydGen Anita 8611, dam of Black Pearl, Patriarch and Jack Black. Semen \$50

DE-SU VOLUNTEER B122

- Owned with ST Genetics, Navasota, TX, Brandt Farms, Corning, IA and High Point Genetics, Osceola, IA
- Second high-selling bull of our 2017 offering, later ratioing 110 for both %IMF and REA as well as posting an adj. YW of 1440 lbs. to ratio 113 as the top adj. YW in his contemporary group. Strong percentile rankings across the board.
- Semen \$20

- Owned with Spickler Ranch North, Glenfield, ND
- Top-selling bull of our 2017 offering, out of one of the Pick of the Bred Heifers from Sitz Angus Ranch in Montana. Exceptional for HP, HS, foot EPDs, and \$M, he has sired some popular bulls and females in past sales. Sire of the popular AI sire, S Architect.
- Semen \$20

- Owned with Lazy H Ranch, Hays, KS
- Good footed, heifer-friendly and complete. He's easy to like, and has a nice set of calves and daughters in production.. He ranks in the top 10% for UDDR and the top 2 % for Teat EPDs. First daughters are ratioing 102 on their progeny.
- Semen \$25

- Owned with Leachman Cattle of Colorado, Wellington, CO.
- The flush brother to the \$150,000 record-selling female of our 2019 sale, he excels for CED, Hair Shed, Marbling, REA, \$B and \$C, as well as his Leachman \$Profit value.
- Semen \$20

- Owned with Knoll Crest Farms, Red House, VA and Mogck & Sons, Olivet, SD
- The \$240,000-valuation top-selling bull of our 2019 sale, and our go-to bull for growth, docility, productive daughters, foot structure, and power.
- Semen \$30

- Owned with De-Su Angus, New Albin, IA and Brinkley Angus, Milan, MO.
- Volunteer offers an outcross pedigree for us that excels for multi-trait superiority. Progeny have been well received, and his daughters are making excellent young cows. Progeny have been well-accepted in previous sales, including our top-selling female in 2022 and many featured lots in 2023 and 2024.
- Semen \$ASK

- Impressive daughter of the popular Ambitious produced by the proven donor for Express Ranches and SydGen, SydGen Rita 5730, who was valued at \$100,000 when she sold in our 2018 production sale.
- A maternal sister sold in the 2020 SydGen sale for \$20,000 to Crazy K Ranch, Michie, TN, with another maternal sister selling in the 2023 sale for \$18,000 to Spruce Mountain Ranch, Larkspur, CO.
- Pollard Farms, Waukomis, OK purchased a pick of a flush on 5730 in the 2023 Bases Loaded Sale for \$10,000; a maternal sister sold in the 2022 sale for \$9,000 to Roper Cattle Company, Lebanon, MO, and Leaders Angus, Minden, IA bought a maternal sister in the 2024 production sale for \$8,500.
- A maternal brother sold in our 2021 sale to Grimmus Cattle Company, Hanford, CA for \$23,000, and Amonett Farms, Byrdstown, TN purchased a maternal brother in the 2024 sale for \$8,500 to follow another they bought in the 2020 sale to for \$7,000.
- TC Ranch, Franklin, NE selected a maternal brother in the 2022 production sale for \$7,500, and Phil Burke, Saint Anthony, IN purchased another maternal brother in that sale for \$7,000.
- Maternal brothers sell as Lots 28 and 31, with a maternal sister producing the bull selling as Lot 30.

- Dam came to SydGen as an open heifer in the 2021 Express Ranches Big Event Sale and is a daughter of the \$100,000 SydGen Rita 5730.
- Another granddaughter of 5730 was top-selling full-interest female in the 2025 Big Event, bringing \$300,000 to Grimmus Cattle Co., Hanford, CA.
- A natural calf out of a great young dam, this heifer had a tremendous weaning record, outstanding growth EPDS and a \$B that ranks in the upper percentiles of the breed.
- Mershon Cattle LLC, Buckner, MO purchased a maternal brother sired by Bonus in the 2024 SydGen Production Sale at \$5,500, and he posted an impressive IMF ratio of 131.
- Sired by Crouch Congress, the \$175,000 top selling bull of the 2022 National Angus Bull Sale held at the Cattlemen's Congress in Oklahoma City, OK.
- Volumes can be written on the impact the maternal granddam has had on the Angus breed with 100 progeny that have genomic tests at American Angus.

- Dam was purchased from long-time customer Blue Mound Angus, El Dorado Springs, MO, as the top-selling female in the 2022 Power Performance Pedigree Sale for \$25,000, and she has become a valuable member of the donor herd at SydGen.
- One of the very top fall heifers for \$C, and a balanced EPD profile ranking well for all the bio-economic indexes..
- True Balance sold one-half interest for \$175,000 in the 2022 Bases Loaded Sale in Oklahoma City, OK, and his progeny have been widely accepted topping sales across the nation.
- Dam is one of the most productive Exceed daughters you could find, and the mating to several different sires has resulted in an exciting offering in this 47th Annual SydGen Sale. She currently has 9 progeny scanned with an average %IMF ratio of 135
- The dam stacks three of the most influential sires in SydGen history with Exceed, Black Pearl, and CC & 7.
- A full brother sells in the spring bulls as Lot 23.

- Genetics to meet the goal of producing high quality beef.
- Scanning 13.34% IMF to ratio 154, along with a 14.4 adj. REA to ratio 108, she has proven herself even beyond her genomic rankings..
- Cover the Bases sold in the 2022 Express Ranches Spring Bull Sale with one-half interest selling for \$200,000 to Pollard Farms, Waukomis, OK, and his progeny have established him as a proven multi-trait sire with exceptional marbling.
- This heifer is the Number 2 \$C daughter of Cover the Bases in the breed.
- A full brother sold in the 2024 SydGen Production Sale to Rod Findley, Pleasant Hill, MO.

- A new generation of the upward trending SydGen Ruby Rose cow family; the dam of this heifer was at side of her dam when we purchased BMA Ruby Rose 928 in 2022.
- Dam's first calf had a weaning ration of 108, yearling ratio of 115, and uREA ratio of 127.
- A full brother sells as Lot 158, and a maternal sister is a bred heifer selling as Lot 369.
- We had the misfortune of losing the dam due to injury late this spring.

- This ET heifer came to SydGen as a two month old calf in the 2024 Smith Valley Angus Production Sale, Salem, MO.
- Dam is regarded as the top Clarity daughter of the great Y69 cow, a multi-million dollar producer.
- Six full-sib pregnancies to the dam averaged \$29,000.

- Dam was the \$97,000 top selling open heifer in the 2023 Pollard Farms Production Sale, Waukomis, OK.
- Grandam went to Pollard's as a \$50,000 pregnancy from an Express Big Event offering.
- Maternal great-grandam is the \$640,000 valuation flush sister to Baldrige Colonel that served as a donor at Spruce Mountain and Express Ranches.
- The third dam is the \$1M-valuation Y69 at Baldrige Angus.
- This female is the top-valued female ever purchased by SydGen, and we are offering Buyer's Choice of 4 heifers from this mating, due January 7, 2026. Choice can be made after genomic results are received, but prior to weaning in the fall of 2026.

**LOT 9 - SYDGEN LADY 5057**

**POLLARD LADY 1506**  
**DAM OF LOT 9**

A portion of the proceeds from Lot 10 will be going to the Angus Foundation's Angus Fund to support its mission of advancing Angus programs through education, youth and research. The Angus Foundation is a 501c3.

- A special feature in this daughter of Sunshine from his first full calf crop, and produced by a first-calf daughter of Gavel. She was one of the top weaning ratio calves in her contemporary group. Sunshine was our selection from the 2024 National Angus Bull Sale held at the Cattlemen's Congress in Oklahoma City, OK, and has surfaced as one of the breed's top young sires, with extraordinary Values for FL, Teat, UDDR and Hair Shed, yet still solid in the basics of CED, carcass quality and foot structure.
- The dam had an individual weaning ratio of 115, a yearling ratio of 110, and a Ribeye ratio of 111.
- Maternal brothers to the dam sold in past sales to Mershon Cattle LLC, Buckner, MO and Marty Mitchell, Clinton, MO.
- Strong maternal line; the maternal grandam had 5 natural calves with an average weaning ratio of 105, and 5 yearlings averaged 105, and she sold in our 2024 sale to Black Magic Ranch, Glasgow, MO for \$6,500.

- This exciting female prospect is one of the high growth heifers in the offering and is backed by three generations of American Angus Association recognized Pathfinder Dams.
- Scanned one of the very best combination scans of the fall heifers, with 125 IMF ratio and 112 REA.
- Dam was selected in the 2021 Mead Angus Farm Production Sale, along with her flush sister, and both are maternal sisters to the popular Mead Magnitude.
- Dam has 4 WR-104 and 9 IMF-107.
- Engelberg Angus Farm and Victoria De Clerk, Pocahontas, AR purchased a maternal brother in the 2022 SydGen Production Sale for \$15,000, with another maternal brother selling in 2025 to Circle M Farms, Mexico, MO for \$7,500.
- A flush brother sells as Lot 126 in the fall bull division.

- A striking daughter of Ambitious produced by the Northside daughter that sold in the 2020 SydGen Production Sale for \$28,000 to Greiner Angus, Kalona, IA.
- BC Angus, Adair, IA purchased a maternal sister in our 2023 sale for \$13,000, with maternal sisters selling in the 2024 production sale for \$8,000 to Hopson Angus, Crescent, OK, and for \$3,400 to JNS Cattle Company, Bloomfield, IN.
- Mershon Cattle LLC, Buckner, MO bought a maternal brother in the 2024 sale for \$5,000.
- A maternal sister to the dam sold in the 2024 SydGen sale to 6420 for \$5,000, and in that sale the maternal grandam sold for \$7,000 to Spruce Mountain Ranch, Larkspur, CO.
- SydGen Evergreen 5005 sold for \$8,000 to BC Angus in our 2020 sale, and she produced Eternity, the \$28,000 second top selling bull through the 2020 sale going to Grimmus Cattle Company, Hanford, CA.

## The Deal

On some of the open donors, we offer the buyer's option of leaving the cow here, and we will attempt to flush them here, on farm, in early December. We will pay all of the flush expense and care for the cow, for 50% of the embryo production. We will have a list on sale day of which cows we want to try. Your share of the embryos will be frozen, and available to you at any time after the flush. Even if you plan to flush the cow later on your own, this might be a cheap, quick way to get a few embryos made before you move her.

- Another powerful son of Step Up from the productive SydGen Primrose family, this bull's dam is an American Angus Association recognized Pathfinder Dam that has an average weaning ratio of 114 on 4 calves at weaning, and 3 calves ratio 117 at yearling and 111 for ultrasound ribeye.
- A maternal brother sired by Smokey sold in the 2025 SydGen Influence Sale to Kent Hildebrand, Payson, IL at \$7,750.
- Rolling 7 Ranch Company, Lodgepole, NE purchased a maternal brother in our 2021 production sale for \$7,000, and another maternal brother sold in the 2022 sale for \$5,500 to Dan Ewigman, Brookfield, MO.
- The dam's maternal sister sired by Cool sold to Chamness Angus, Anna, IL in the 2018 SydGen Production Sale.

- Five ET flush mates produced by the \$15,000 heifer calf purchased in the 2019 SydGen Production Sale by Greiner Angus, Kalona, IA and placed in the joint embryo transfer venture with SydGen.
- Consistent performance and genetic values in these five flush brothers.
- Spruce Mountain Ranch, Larkspur, CO purchased a maternal sister in our 2024 production sale for \$12,000, and a maternal brother sold in that sale to Steve Medlin, Cookeville, TN for \$7,000.
- Mead Angus Farm, Barnett, MO purchased a maternal brother in the 2023 SydGen sale for \$5,000, with another brother selling to Megan Werdenhausen, Fulton, MO at \$4,250.
- Flag Ranch, Torrington, WY selected a maternal brother in our 2022 production sale for \$5,500, with yet another maternal brother selling to Russ Mothershead, Cape Girardeau, MO.
- The donor dam sired by Faith has two natural calves that ratio 104 at weaning and 108 at a year, and the maternal granddam posted an impressive production record at SydGen with 5 calves average weaning ratio of 110 before selling to Boot Hill Farms, Hamilton, MO.
- A maternal sister to the dam produced the \$25,000 Brickyard that sold in the 2018 SydGen sale to Mogck & Sons, Olivet, SD.

- Dam of this Volunteer son is an impressive daughter of Enhance that has raised 2 natural calves with an average weaning ratio of 107.
- The maternal grandam was the \$50,000 half interest extra lot female that topped the 2020 SydGen Production Sale to Greiner Angus, Kalona, IA, and as a donor in our joint programs she has amassed a stellar record with 20 progeny to date with ratioing 108 for IMG and 103 for REA.
- Mershon Cattle LLC, Buckner, MO purchased a maternal brother to the dam in the 2024 SydGen Sale for \$10,000, with another maternal brother in that sale going to Judson & Denise Baldrige, North Platte, NE and AJC Angus, Holden, MO for \$6,000.
- Other maternal brothers to the dam have sold in past sales to Leland Sniders, Jerseyville, IL at \$5,000, to Mershon Cattle LLC for \$5,500, and to C Bar Land & Cattle at \$4,750.

- Pollitt Farm, Astoria, IL selected a maternal brother in our 2021 sale for \$5,500.
- Dam has a solid production record and his sire is serving at Chateau Cattle Company, Maryville, MO.
- Maternal grandam was purchased by Greiner Angus, Kalona, IA in the 2018 sale for \$20,000.

## Bull Calf Wintering Program

We have sold many of our bulls as calves in past years, and are doing so again this year. Though they are not old enough to semen test by sale day, they are Guaranteed Breeders. Many cattlemen prefer buying calves and raising them at home to get them acclimated and to have the bull developed and ready to go out at breeding season. For those of you who do not have the facilities to raise the bulls, or just prefer not to do it, we offer an option for people buying bulls in this sale. For a flat fee of \$300.00, you may leave the bull here and we will raise him in our normal manner, and you may pick him up any time during the month of April, 2026. The bulls wintered at Sydenstricker Genetics will have yearling weights taken, be ultrasounded for body composition, and have a breeding soundness evaluation. Buyer does own the bull as of sale day, and assumes all risk of injury or death. We would suggest buyers purchase insurance on these bull calves. Bulls will be raised on a ration of grass hay, corn silage, oats and corn. They will be well grown out and hard, not over-conditioned.

- A heifer-friendly prospect that has the top RE EPD in the spring bull group, with an upper percentile rank for \$B.
- A maternal sister in the herd sired by Volunteer had an IMF ratio of 111 and a Ribeye ratio of 103, and she sells as a bred heifer Lot 371.
- The Smokey calves mark him as one of the very best breeding sons of Volunteer, reflecting the impact of his great dam sired by Trust.

**Interest Retained in Bulls**

We are selling half revenue-sharing interest with full possession on all bulls, unless otherwise noted. This means the bull is totally in your control as far as how you want to handle him, and you get 100% of the salvage value of the bull. Simply, we have the right to half the semen sales revenue from the bull if sometime in the future, semen sales become a possibility. If you sell the bull to another breeder, Sydenstricker Genetics retains that half semen interest.

The buyer has the option, on sale day, to pay one-third more than the bid price in order to obtain two-thirds revenue-sharing interest and full possession.

If you purchase a half interest bull and wish to collect some semen on the bull as an "insurance policy" for your own use, that semen is 100% yours, unless Sydenstricker Genetics is in contact with you and also wishes to collect the bull, either for within herd use, or to build a jointly-owned bank of semen for sale purposes. If you are not interested in collecting semen on the bull, SydGen does have the right to collect the bull for their own use, will pay the expenses involved, and will do so at the convenience of the owner of the possession interest.

- A high performing son of Verified produced by an Enhance granddaughter purchased as an open heifer in the 2021 Edisto Pines Production Sale in Leesville, SC.
- Dam has 3 natural calves average weaning ratio of 103, and her bull by Alpha was one of the top gaining bulls in his contemporary group, ratioed 111 at yearling, and is Reference Sire ZZ.
- A maternal sister to the dam has an average weaning ratio of 110 on her first two calves at SydGen, with a son selling to C Bar Land & Cattle, Percy, IL for \$6,000, and a daughter sold in our 2023 sale to Cunningham Farms, Molino, FL.
- Four powerful cow families and four highly-proven sire lines in a bull that has done everything right. The potential here is limitless.

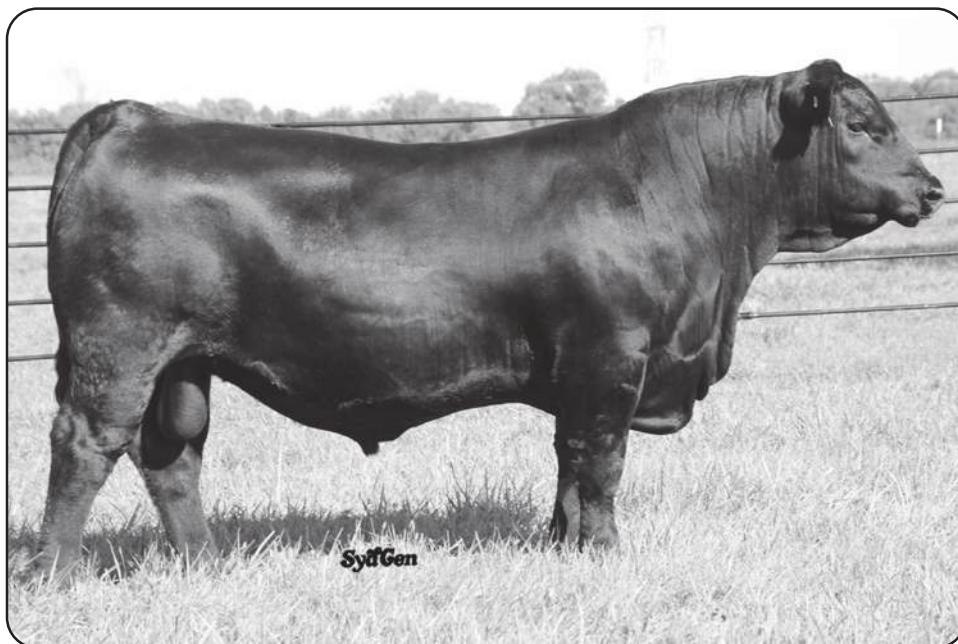

**General Information On The Fall Yearling Bulls**

We are certain most buyers of these fall yearlings (Lots 88-193) will want to take them home after the sale. They are semen-checked, vaccinated, and ready to go. If you would like to leave him here on our wintering program until April, the cost will be \$400.00. This will include a re-check on his semen test.

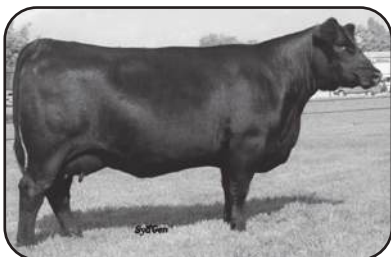

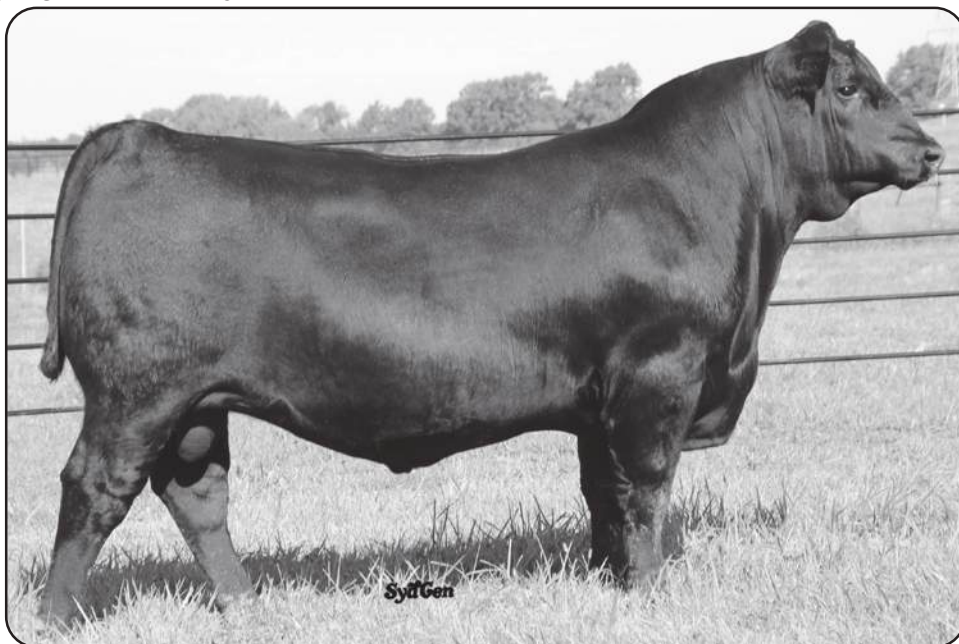

There are four weaning contemporary groups in this set of bulls. The bulls lotted as 88-153 were raised at our Garcia and Dodson locations, fed at WFL, were mostly natural calves, and gained 3.40 lbs./day. Lots 154-193 were natural and ET calves out of two year olds, and natural and ET calves from our HH location. Those were fed in one feeding group at Dodson, and gained 3.51 lbs./day. Adj. YW average was 1,324 lbs. Average frame score on all fall bulls in the sale was 5.9 and average adj. SC was 36.9 cm. Average adj. IMF was 3.80%, REA of 15.7, rib fat of .35 and rump fat of .37.

Calves were brought in from all locations and weaned, with weaning weights taken on May 12 & 13, about 7 days after actual weaning. Bulls were put on a complete, self-fed ration in two 10-acre fescue pastures until yearling weights, scrotal measurements, and ultrasound scans were taken on September 10 and 11, for total days on feed of 122 days for lots 88-153, or 120 days for lots 154-193. There was no "warm-up" (or shrink out) period between the date weaning weights were taken and their beginning test weight. The feed we now use on the bulls, Purina Bull Developer, does have limiters in it, and we have been pleased with the condition and the soundness of the bulls coming off test. We included substantially more fiber in the ration for four years now. Bulls were all vaccinated with Express FP 5-VL5 and poured with Dectomax, and gradually converted to a silage and hay based ration, which they stay on until sale day. We wean late, and have a short feeding period in order to better utilize spring grass, and to help keep the bulls from being over-conditioned.

- The heaviest weaning weight bull of our toughest contemporary group, his ADG and adj. YW are the highest of the entire group of fall yearling bulls. He then scanned 18.5 adj. REA, Number 1 in his contemporary group and tied for Number 4 of the entire fall bull division.
- Dam was a SydGen purchase in the 2022 Baldridge Female Sale, North Platte, NE, and her first 2 natural calves have an average weaning ratio of 113.
- A maternal brother sired by Bonus posted a 166 ultrasound IMF ratio, selling in the 2024 SydGen Production Sale for \$6,500 to William Spears, Macomb, IL.
- The maternal grandam was a prolific donor for both Hinkle's Prime Cut Angus and Jud & Denise Baldridge with 224 genomic progeny recorded, and she is now owned with 2S Angus Land & Cattle, Joplin, MO.
- We believe he owns the highest adj. YW in SydGen history!

• Leatherwood Valley Farms, Salesville, OH purchased a maternal sister sired by Gavel in our 2023 sale.

• A flush sister to the dam sold to Stepaside Farm, Sanger, CA for \$7,000, with their flush brother selling to Wildwood Farms, Carrollton, MS.

• Maternal brothers to the dam have sold to High Valley Ranch, Santa Fe, NM and to Rick Aufdenburg, Jackson, MO in past production sales.

## Cowboy Logic #90

Many of us have a predisposed notion that we want calving ease/low BW herd sires. But, in the Angus breed, do we really have that much problem with big calves? It seems like most of the problems at birth are more linked to abnormal presentations than actual calves that are too big for the cow or even heifer. And, it seemed like maybe those smaller calves just were not as thrifty. We decided to see if we could dig into the data, and see what survivability to weaning really looked like. After all, a small calf at birth doesn't really help the bottom line if he dies prior to weaning anyway!

We divided up four years of spring calf crops into three groups: (light) 69 lbs. or less; (medium) 70-89 lbs.; and (heavy) 90 lbs. and up. We edited out any abortions and all twins. In a nutshell, the death loss at birth through weaning was twice as high on the light calves as it was on the medium calves. The death loss on the heavy calves was the least of the three groups, and it was the least in every one of the four years. We did not differentiate according to cause of death, or whether it was right at birth or later on pre-weaning.

We've all heard someone say the growth rate of a dead calf is distressingly poor, and took that to mean we needed lighter calves at birth so we would get more of them born alive. Every operation is different, but it certainly appears to us that bigger calves at birth are more likely to still be around at weaning. We would never advocate breeding heifers to anything but a true heifer bull, but our cowherds might be much better served by sires that give their calves more of a head start.

A study by the University of Illinois on Sim-Angus cattle reported the same conclusions.

• Dam has been a consistent producer with 3 WR-105 and 2 REA-109.

• The maternal granddam by Black Pearl is the dam of Target, working for D & R Angus, Buffalo, MO, and she sold in the 2020 production sale to the partnership of Rossman Genetics, Marty Hultman, and GW Genetics for \$6,000.

• Dam's maternal brothers sold to Rocking P Farm, Horner, WV at \$7,500; Larry Keller, Shelbyville, MO for \$6,000; Jeffery Zerr, Montgomery City, MO, and Don Ittner, Jefferson City, MO.

## Cowboy Logic #57

"The genetic relationship between scrotal circumference and heifer pregnancy rate is .57.

The genetic relationship between scrotal circumference and lifetime pregnancy rate is .34.

Studies showed about 14% higher heifer pregnancy rate on heifers sired by high-middle and high SC sires, compared to low and low-middle SC sires."

--Dr. Mark Enns, Ph.D at Colorado State University, at the 2006 National Angus Conference.

As you study the catalog and the herdsires, you will see a long-term emphasis here on strong scrotal development.

- Hat Creek Genetics, Jackson, MO selected a maternal sister in the 2024 SydGen Production Sale for \$3,900.
- Dam was produced at Mead Angus Farm, Barnett, MO that we purchased in their Fall 2023 production sale, and she sells as Lot 355.

## Tips on Using Yearling Bulls

Yearling bulls have many advantages: fresher genetics, better selection, etc. Studies have shown bulls used as yearlings sire more calves in their lifetime than bulls held until they are two. Also, buyers who manage them well can often re-sell them as three or four-year-olds and recover much of their purchase price.

A few tips from our experience:

1. If your group has too many cows or heifers for one yearling bull (we suggest 10-15), don't put all the bulls out at the start of the season. If you turn them all out at once, they are likely to all lose weight and perhaps all go temporarily sterile at the same time. If you have two bulls, put one in for two weeks, then pull him and turn out the other one. The forced rest and a little feed and fly control will make him stronger. Using the every two week rotation, if one bull is a stronger breeder, he will always be covering what the other bull missed. Furthermore, running multiple bulls in the Midwest often results in broken penises; it's just different out West where the pastures are so much larger.
2. A yearling bull should not be out in a Missouri pasture from mid-July through August. Bulls generally shed their first two incisors about 18-20 months of age. That combined with fescue endophyte and heat stress could cause the bull to get so nutritionally stressed that it will take a long time to get him back in shape.

- Another mating featuring the proven SydGen donor BMA Ruby Rose 928, this bull is sired by Crouch Congress who sold in the 2022 National Angus Bull Sale in Oklahoma City, OK for \$175,000.
  - Upper percentile rankings for CW EPD, \$B and \$C in this bigger scaled, performance oriented prospect.
  - This powerful donor dam also produced the maternal sisters featured as Lots 3, 4 and 5.
  - The dam stacks in line a trio of the true foundation sires of the SydGen program in Exceed, Black Pearl and CC & 7.

- One of the impressive data profiles in the bull offering, high ranks for CW, RE, and RADG EPDs, this bull posts top \$B and \$C index values, along with great phenotype.
  - The donor dam was the heifer calf at side when we purchased BMA Ruby Rose 928 as the top-selling lot in the 2022 Power Performance Pedigree Sale.
  - The dam's first natural calf had a weaning ratio of 108, yearling ratio of 115, and a Ribeye ratio of 127.
  - A full sister is a featured spring heifer calf selling as Lot 6.

- This pair of flush brothers sired by Ozark were high performance bulls in post-weaning gain, and the 166A has one of the top RE EPDs in the fall bulls. He did scan the largest uREA of all the fall yearling bulls, at 19.0 sq. in.
- 166A also tied for the second highest ADG in the entire fall bull division, and has a strong RADG, putting him on the short list for anyone who retains ownership.
- The dam was an open heifer we purchased from LA Genetics, in the 2022 Missouri Angus Ladies of Autumn Sale.
- Dam on her first natural calf had a weaning ratio of 108, yearling ratio of 111, IMF ratio of 108, and Ribeye ratio of 113.

- Upper percentile ranks for WW, YW, CW and RE EPDs place this prospect in the upper tier for \$B and \$C index values.
- This is the bull that tied with 166A as the second high-gaining bull in the entire fall yearling bull division.
- Dam was a featured \$50,000 open heifer we purchased in the 2022 Spruce Mountain Ranch Production Sale, Larkspur, CO, and she has been a donor in the SydGen ET program.
- A flush sister is a highlight of the fall open heifer division and sells as Lot 11.
- R H Ranch, Dearborn, MO purchased 3 embryos of this mating with Ares in the 2024 Missouri Angus Futurity.

- A pair of Volunteer sired flush brothers, with strong rankings for the economically important indexes of \$W, \$B and \$C.
- Dam is a proven producing FATE daughter with 5 natural calves weaned with an average ratio of 103, earning her a place in the SydGen donor herd.
- Ron Smith, Columbia, MO purchased a maternal sister sired by Gavel in the 2023 SydGen sale for \$6,250, with another maternal sister selling in our 2021 sale to Chamness Angus, Anna, IL.
- A maternal sister in the herd produced the spring bull selling as Lot 76.
- Great-grandam, 4556, is one of the very top females ever produced here phenotypically, and topped the 2007 Missouri Angus Futurity at \$24,000 to Schuring Cattle Co., Andover, SD.

- MW Hildebrand, Payson, IL purchased a maternal sister sired by Alpha in our 2024 sale for \$3,500, with another maternal sister selling in the 2023 production sale to Doug Turner, Mahomet, IL for \$3,700.
- Dam has 3 progeny with ultrasound data average IMF ratio of 141.
- Upper percentile RADG EPD with balanced carcass traits for a strong \$B index value.

## HERD UNITS

This is our 21st year of selling herd unit groups of heifers, and it has been well-accepted. As our herd expands and the size of this sale grows, we think it makes sense to sell these closely related groups of sisters as packages of two to five head at a time.

- Great production record on this proven producer, and she has the top RE EPD in the fall calving sale offering.
- A son sired by Volunteer sold in the 2022 production sale to Jim Dalbey and Colt McIntyre, Burlington Junction, MO for \$9,000, and another son sells as Lot 106 in this sale.
- A maternal brother to Stealth, the \$25,500 selection of Amonett Farms, Byrdstown, TN in the 2019 SydGen Production Sale.
- Other maternal brothers sold to Jay McCallie, MO, to Kinseys Oak Front, WV, to Kenneth Rehagen, MO, and to Pollitt Farm, IL in our 2020 production sale.
- Has a heifer calf (Lot 283A), calved October 1, 2013 by SydGen KCF Gavel 8361 (Z). BW 71 lbs.

## Cowboy Logic #20

One of the toughest decisions we make each year is determining which genetic values and what performance data should be printed in the sale book. Our preference is to print the data most breeders use in their selection decisions, and that is what we believe we have included. We also prefer to condense the data as much as possible, so the information is easier to read and quicker to comprehend when one is making decisions at the pace of an auction sale. This year, we added all three of the new EPDs. Though breeders might not be using them much at this point, we all need to become familiar with them. Meanwhile, all registration numbers are provided here, and every EPD and bio-economic index is available to you on the EPD/Pedigree Lookup page at [www.angus.org](http://www.angus.org). On sale day, the most current EPDs on all Lots will also be posted.

To save space, we did remove Dam Progeny Records this year, but all that information is available to anyone who asks, and we will try to post them on sale day, if we can work through the logistics.

- George Neal, Auxvasse, MO bought a son in the 2022 production sale, and a daughter sells in the bred heifer division as Lot 393.
- A maternal sister produced a \$10,000 bull sired by Early Bird that sold in our 2022 sale purchased by Buck Run Cattle Farm, Union, KY.
- Due in November to SydGen Omega 3280 (VV).

## Cowboy Logic #101

"A contemporary group is a set of animals that have had an equal opportunity to perform: same sex, managed alike, and exposed to the same environmental conditions and feed resources. Contemporary groups are the cornerstone of genetic evaluation. They are the best way to account for environmental effects so that remaining differences among animals may be attributed to genetics, ultimately resulting in expected progeny differences (EPDs)."

--- American Angus Association

We take proper contemporary grouping very seriously at SydGen. We try to keep our contemporary groups as large as our pastures and facilities allow, and run them as "same sex" pastures whenever possible. It is every Angus breeder's responsibility to do the most accurate job possible turning in data, and proper contemporary grouping is the very most basic concept for National Cattle Evaluation.

- RE EPD ranks in the upper 10 percentile, and this heifer has the highest \$W in the heifer calves selling.

**Performance Information**

The EPDs printed are all from the Fall 2025 Sire Evaluation Report.

Progeny ratios are printed on cows as of October 1. (Example: BWR 6-103, WWR 6-102, YWR 3-104 means the cow has six calves weaned or recorded with an average weaning ratio of 102, those 6 calves had an average birth weight ratio of 103, and three of those had yearling weights turned in with an average ratio of 104.)

We print ratios because many of our customers like to see them. But because of differences in the performance levels between herds and contemporary groups, and a multitude of factors that can affect any one individual weight (which is the basis for the ratio), EPDs HAVE BEEN SHOWN TO BE AS MUCH AS NINE TIMES MORE ACCURATE THAN RATIOS AS A SELECTION TOOL.

(Consider the three to four hours that it takes to weigh and vaccinate a set of 110 bull calves on weaning day. There will be considerable difference in fill between the first calves weighed and the last calves weighed.)

All spring calves in this sale have had birth and weaning weights processed through AHIR, and the EPDs printed reflect that data. Data from those calves has been used to update the progeny ratios of their dams, where applicable. No spring bull calves born after January 31 will be in this sale offering.

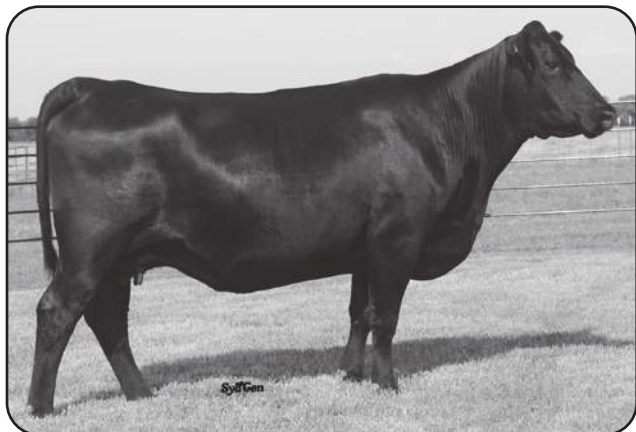

Also on sale day, we will furnish current weight, frame score, average daily gain, and projected yearling weights on the spring bull calves. Projected yearling weights are calculated by multiplying their post-weaning ADG by 160, and adding that result to their adj. 205-day weight. This is not an official 365-day weight.

In this catalog, you will see ratios for BW, WW, and YW on some of the ET calves. The Association is supplying this information, and adjusting the interim EPDs accordingly, for those calves born out of registered Angus recipient cows. This methodology is called the three parent model, due to the two genetic parents and the influence of the environmental parent, the recipient dam. These ratios are determined within their weaning contemporary group and within those ET calves raised by registered Angus recipients, after adjustment for age of dam. This may be confusing at times, especially when some calves within a flush were raised by a registered Angus recipient and some were not.

ET calves raised by commercial recipients and those produced by IVF, will still carry EPDs that are the average of their sire and dam, and are lower accuracy than their counter-parts raised by a registered Angus cow.

- This Pathfinder Dam has established herself with an impressive production record at SydGen.
- Stone Gate Farms, Flemingsburg, KY purchased a son in 2024 for \$10,000, with another son selling to Landon Petree and LP Angus, Buncheon, MO in the 2022 production sale for \$8,500.
- Weiker Angus Ranch, Fayette, MO purchased a daughter in the 2022 SydGen sale.
- Was raising a nice heifer calf that we lost to bloat in late July.
- Bred April 24, 2025 to ST Wizard 1585. Exposed May 1, 2025 to June 13, 2025 to Brinkley Skillset 3866. Preg Check indicates conception on about May 13 with a bull calf.

## Genomics

Genomics have become more and more important to NCE, and their impact will continue to grow. As a herd that turns in a lot of phenotypes (data) to AHIR, we have already built up the accuracy, and the genomics just adds to it. We turn in some 15,000 pieces of information to AHIR yearly.

We have seen the genomic scores lining up closer and closer to the performance of the cattle over time, and have genomic tested every bull calf in the offering for several years. The added plus, besides offering the latest technology, is the parent verification that is included with the testing.

We feel the most value is for those younger cattle who have not had gain and ultrasound information processed yet, individuals who land in very small contemporary groups, and ET calves who happen to draw a bad recip or an exceptional recip. We do agree the best way to utilize genomic predictions is to integrate them into the EPD system, just as AAA is doing. We also believe genomics is just one more competitive advantage where the Angus breed is the leader.

We do not believe genomic testing can or should be used as a substitute for actual performance testing. We still need that good data, in proper contemporary groups, to train the markers properly.

For those sale animals already genomic tested, and incorporated into their EPDs, there will be an HD 50K or AngusGS logo in the book for that animal. This year we tested all 2025 calves and all the fall yearlings. Please check our website, and we will post all genomic results, as well as having them available on sale day. Also, on sale day, we will have a print-out posted by the office with the most up-to-date EPDs available on every sale animal, as of the November 21 NCE run.

## The \$ Indexes

We now have six bio-economic Indexes available on Angus cattle. \$Weaning is a measure of the economic impact of four primary areas affecting animals from birth through weaning. Those four areas are birth weight, weaning weight, maternal milk, and mature cow size. It assumes an 80-20 mix of cows to heifers. \$Feedlot is a measure of the value associated with post-weaning growth along with feed efficiency. \$Grid is actually a measure of total end-product value on a quality grid, using ultrasound and carcass data when both are available. \$B is a combination of YW, CW, DMI, marbling, ribeye area and fat thickness into a terminal post-weaning value.

\$Maternal Weaned Calf Value includes CED, CEM, WW, Milk, HP, docility, mature weight, FL, and claw and angle EPDs to predict the profitability differences on a weaned calf basis.

\$Combination is the other newer index available that attempts to measure the combined economic impact of an animal on a dollars per head basis. It is computed by multiplying the \$Beef Value by 1.297, and adding that number to the \$M value. (This approximates a 20% replacement rate.) \$C has quickly become a driving force in the value of Angus breeding stock.

With any index, there are assumptions made which may or may not fit your particular operation. For instance, if you are going to use a bull on cows only, the bias toward lower BW in the \$W and \$M indexes may not be needed. If the bull is going to be used solely on heifers, you may need more bias toward lower birth weights. If you have unlimited feed resources, the bias toward smaller mature size in the \$W index may not be needed.

The same holds true for particular carcass traits. If you have feedlot and kill data on your cattle, you can fine-tune your growth and carcass trait needs more accurately with individual EPDs than with the \$B index. Actually, as the price of beef has driven \$B values higher the last few years, Carcass Weight (CW) is a dominant component of the \$B computations. If you are already pushing the limits of over-weight carcasses, you may need to select for less CW EPD, therefore making some higher \$B bulls less desirable in your scenario.

We do believe the \$C index is suited very well for most of our customers, and we are including it in this sale book on every animal. We are not printing \$G on each lot, as we think most of you prefer to look at the EPDs themselves for the four carcass traits. We still might reference \$G in a footnote if the animal is exceptional.

On sale day, every EPD and every bio-economic index will be posted for every animal, as of November 21.

- This Vince daughter has the number one RADG EPD in the bred heifer division, and has upper percentile ranks for YW EPD and \$B.
- This heifer posts the second highest WW ratio and highest YW ratio in the bred heifers. She has earned the most famous number in the John Deere legacy.
- Dam was a bred heifer purchase in the 2022 Spruce Mountain Ranch Production Sale, Larkspur, CO, from a family developed in Canada by Peak Dot Ranch.
- Bred April 10, 2025 to RSA True Balance 1311. Exposed April 22, 2025 to May 27, 2025 to WL-HR Sunshine 2778. Preg Check indicates conception on about April 10 with a heifer calf.

- One of the top yearling ratio heifers in the sale, she has high percentile ranks for RADG, CED, and RE EPDs.
- Dam was the calf at side when we purchased BMA Ruby Rose 928, and she also was a donor in our ET program prior to her untimely passing this spring.
- A maternal sister is a featured open heifer selling as Lot 6, and a maternal brother sells as Lot 158.
- Bred March 28, 2025 to G A R Verified 2683. Exposed April 22, 2025 to May 27, 2025 to WL-HR Sunshine 2778. Preg Check indicates conception on about March 28 with a heifer calf.

- This female was a heifer calf we selected in the 2024 Express Ranches Big Event Sale, a daughter of the popular Ellingson Prolific.
- Upper percentile ranking for HP EPD.
- Because she was purchased and had no contemporaries, this heifer's performance does not impact her EPDs.
- Exposed May 2, 2025 to June 10, 2025 to Pine View Papa L221. Preg Check indicates conception on about May 2 with a bull calf.

- A maternal sister sold to Crow Ridge Angus, Monroe, TN in the 2022 production sale, and a maternal brother was selected in the 2021 sale by Steve Hees, Jamestown, MO.
- On of the very best HS EPD in the heifers selling; this heifer also ranks in the upper percentiles for RADG and CED EPDs.
- Bred April 20, 2025 to URF Alpha G138. Exposed May 2, 2025 to June 13, 2025 to SydGen Edge 4115. Preg Check indicates conception on about April 25 with a heifer calf.

- Ron Burdette, Lineville, AL bought a maternal sister in the 2023 SydGen Production Sale, and a maternal brother sold in the 2022 sale to George Glascock, LaBelle, MO.
- The dam sired by Cool has 2 progeny with ultrasound scans average for IMF ratio of 119.

## HERD UNITS

This is our 21st year of selling herd unit groups of heifers, and it has been well-accepted. As our herd expands and the size of this sale grows, we think it makes sense to sell these closely related groups of sisters as packages of two to five head at a time.

## 40 BLACK AND BWF BRED HEIFERS

All were AI bred to SydGen Enhance (Reference Sire P) on May 16, 2025. From June 3, they were exposed to sons of SydGen Blueprint, URF Alpha G138, SydGen Bonus 8084, De-Su Volunteer B122, SydGen KCF Gavel 8361, Bakers Northside 6007, SydGen II Lombardi 9045, HPCA Early Bird 65 and SydGen Exceed 3223. All sires have CED of +7 or better, with genomically enhanced EPDs, the same requirements as Show Me Select service sires. Heifers were ultrasound and fetal sexed in August. They will be sorted by expected calving date and sex of the calf, and all heifers selling will be due by March 15, 2026.

## 30 BLACK AND BWF TWO YEAR OLD PAIRS

Calves will all be about 30-45 days old on sale day. These are all naturally sired by SydGen bred bulls that are sons of SydGen Blueprint, URF Alpha G138, Bakers Northside 6007, HPCA Early Bird 65 and SydGen Exceed.

Mershon Cattle is a commercial cattle operation run by the Mershon family in western Missouri. This is the twelfth consecutive year that Mershon Cattle has sold bred heifers in the SydGen Influence Commercial Heifer Sale. For seven years, they have also sold pairs in the Spring SydGen Influence Sale. They have been using SydGen bulls and semen since 2004. Their herd consists of Angus based, cross-bred cows that have been AI bred using Angus, Hereford and Simmental semen. Steers are retained and sold on the grid. A recent pen of steers walked into Darr Feedlot at 977

pounds, yet gained 4.4 pounds/day for the feeding period, then earned \$7.25/cwt. Premium over the base grid.

All heifers offered are from Mershon Cattle's home-raised cows. Mershon Cattle LLC was awarded the 2013 Missouri Angus Association Commercial Producer of the Year Award.

In 2019, they received the BIF Commercial Producer of the Year Award, the most prestigious in the industry. Bruce is Past President of the Missouri Cattlemen's Association and Tracey is a Region 1 Board Member for the Missouri Beef Industry Council.

**Bellis Family Farms, Kirk and Amy Bellis**  
**8232 Woods Road, Orrick, MO 64077, (816)889-8813**  
**Kbellis61@gmail.com**

11 BRED HEIFERS, sourced from his next door neighbor. These Sim-Angus heifers were AI bred to SydGen Black Pearl 2006 on May 6, 2021. All were exposed to SydGen Slash 1130 20088451. Preg check indicates 6 are safe to Black Pearl, and 5 are safe to the Slash son.

Kirk and Amy Iman Bellis have always been involved in Missouri agriculture. Kirk grew up on a diversified farm in Ray County near Richmond, MO, and they now reside on one of the farms previously owned by Kirk's grandparents. Kirk is retired from Bayer Animal Health and they enjoy raising Angus cattle on the home farm. Amy is the daughter of Nick Iman, Iman Angus near Slater, MO, and a well-known Angus auctioneer for many years. He was very involved in the early days of the Missouri BCIA tested bull sales, and was instrumental in the early years of Sydenstricker Angus sales. Their daughter Holly was Missouri Angus Queen in 2006.

## EPDs

We have the following abbreviations throughout this book with regard to EPDs. Remember that an EPD is an estimate of how future progeny will perform, relative to other Angus cattle with EPD values. The accuracy figure, just after the EPD, indicates the possible future change in the EPD. The higher the accuracy, the less likely the EPD will change appreciably.

BW – Birth weight, expressed in pounds.

WW – Weaning weight, expressed in pounds adjusted to 205 days of age.

Milk – Influence of the dam, due to her milking ability, on weaning weight, expressed in pounds of calf weaned.

YW – Yearling weight, expressed in pounds adjusted to 365 days of age.

HS—Hair Shed EPD is expressed in units of hair shed score, with a lower EPD being more favorable indicating a sire should produce progeny who shed their winter coat earlier in the spring. Selection for this trait should improve the genetic potential for a sire's progeny to shed off earlier increasing the environmental adaptability of cattle living in heat stressed areas and producers grazing endophyte-infected (hot) fescue.

TEAT—Teat size, with a larger EPD indicating a smaller teat.

UDDR—Udder size, with a larger EPD indicating a smaller, tighter udder.

FL—Functional Longevity attempts to measure likelihood of a cow staying in the herd and maintaining a yearly calving interval, without being culled or dropping back a season. Larger numbers indicate more likelihood the females will remain in the herd longer.

RADG— expressed in pounds per day, is a predictor of a sire's genetic ability for postweaning gain in future progeny compared to that of other sires, given a constant amount of feed consumed.

CW – Carcass weight, expressed in pounds at a given end point.

MARB – Marbling, expressed as a portion of a marbling score (one point of marbling score = 1/3 quality grade).

RE – Ribeye area, expressed in square inches, at a given end point.

FT – Fat thickness, expressed in inches, at a given end point.

SC – Scrotal circumference, expressed in centimeters, at a year of age.

CLAW— is expressed in units of claw-set score, with a lower EPD being more favorable indicating a sire will produce progeny with more ideal claw set. The ideal claw set is toes that are symmetrical, even and appropriately spaced.

ANGLE— is expressed in units of foot-angle score, with a lower EPD being more favorable indicating a sire will produce progeny with more ideal foot angle. The ideal is a 45-degree angle at the pastern joint with appropriate toe length and heel depth.

CED—Percentage of unassisted births when a sire is mated to virgin heifers. Higher values indicate more unassisted births.

CEM—Percentage of unassisted births as first calf heifers.

DOC—Percentage increase in number of progeny scoring 1 (most docile)

HP—Percentage increase in number of daughters pregnant in their first breeding season.

You have probably noticed the American Angus Association no longer computes ultrasound EPDs. The ultrasound and carcass databases have been combined into one set of carcass EPDs, with both carcass data and ultrasound data used to compute those EPDs. We believe this has made it much simpler to understand, and should encourage more collection of carcass data to increase the accuracy of high use sires.

Remember that no EPD is an absolute. It simply allows you to compare genetic differences in sires. As an example, if you were to use a high accuracy +30 WW EPD sire in your herd, and the weaning weights average 550 pounds, then you could expect a high accuracy +40 WW EPD sire to sire calves averaging 560 pounds, if used in exactly the same situation. A sire with a +6 BW EPD should sire calves averaging 4 pounds heavier at birth than a sire with a +2 BW EPD.

## Bring Your Semen Tank Sale Day

If you place your semen order with Ben or Darla at the SydGen office by November 2, 2025, we can have semen on ANY ORigen sire available to pick up at the farm on sale day with no shipping charges. Of course, most SydGen sires are available sale day. For sire information, check the front 12 pages of this sale book, or visit [www.sydgen.com](http://www.sydgen.com)

## Marketing Opportunities

Sydenstricker Genetics recognizes that being a Full Service Genetic Provider only begins when you buy a bull. There are programs that could help you market your feeder cattle, so feel free to contact us to discuss those programs, including AngusLink, Top Dollar Angus, MFA Health Track Alliance and U.S. Premium Beef.

# 47th ANNUAL PRODUCTION SALE

Saturday November 22, 2025, 10:00 a.m.

Selling 560 Head

|                         |                  |
|-------------------------|------------------|
| 77 Bull Calves          | 57 Heifer Calves |
| 107 Fall Yearling Bulls | 82 Fall Heifers  |

## Directions to the Empire Club GPS: 2088 Lowe Road

From the Sydenstricker sale barn, turn left or North on Business U.S. 54. Go 1.2 miles to Teal Lake Road. Turn right or East on Teal Lake Road. There is one stop sign on Teal Lake Road; continue straight ahead past the stop sign. Go 8/10 of a mile to Empire Club drive. Turn left and follow the lane. Phone numbers to reach Empire Club that night: 573- 473-8100, 573- 473-8101, or 573- 473-9202.

Photos by Ben Eggers and Al Conover.

Produced by Angus Journal. Visit the Angus Journal web site, [www.angusjournal.com](http://www.angusjournal.com), and search this sale book online.

**ANGUSMEDIA** EPDs contained in the hard copy of this sale book were current as of print date. Digital versions of this sale book can be viewed online at [www.angus.org](http://www.angus.org) and will have EPDs updated every Friday with the exception of EPD references in footnotes and photos. Any PDF downloads from the website will contain EPDs current as of the date downloaded. References: American Angus Association®, AHIR®, AngusLinkSM, CAB®, Pathfinder®.

## General Information

**Health:** All cattle will be accompanied with interstate health papers on sale day. Sydenstricker Genetics maintains a Certified Brucellosis Free Herd Number 322, and the cow herd is monitored for Johnes. All heifer calves weaned here have been officially calfhood vaccinated for Brucellosis. All fall-calving cows selling with calves at side are open. All cows have been vaccinated with BoviShield Gold 5, Spirovac VL-5 and Scourguard 3(k)/c, and poured for parasites. Calves have been vaccinated for IBR, BVD and PI-3, BRSV, Haemophilus, Mycoplasma, Pasteurella and 8-way Blackleg; de-wormed, and de-loused. Herd health is under the supervision of Dr. Lindsey Calhoun, Audrain Vet Clinic, 573- 581-4679.

**Sale Location:** Sydenstricker Genetics is located one mile south of Mexico, Missouri on Business Route 54. Mexico is 14 miles north of I-70 on Highway 54. Note: If traveling from I-70, take the first Mexico exit to the farm.

**GPS Address: 3997 S Clark Street, Mexico, MO.**

**Insurance:** Livestock insurance will be available at the farm sale day.

**Trucking:** Sydenstricker Genetics will assist with trucking arrangements, but buyers are responsible for all trucking expenses.

**Interests Retained in Bulls:** See page 32.

**Wintering Program for Bulls:** See pages 24 and 31.

**Breeding Privilege:** All females sell with a breeding privilege (two straws of semen and any paperwork necessary) to any living SydGen bull on which semen is readily available.

**Embryo Guarantee:** Any female selling for \$10,000 or more is guaranteed to produce at least 10 transferable embryos within four embryo flushes by an AETA certified technician. If less than 10 embryos are produced, Sydenstricker Genetics will reimburse the buyer up to one-half the purchase price, prorated to the number less than 10 are produced. (Examples: (1) \$10,000 cow produces no transferable eggs; \$5,000 will be reimbursed. (2) \$10,000 cow produces six transferable embryos; \$2,000 will be reimbursed.) Guarantee is null and void if cow dies.

**Junior Programs:** Any registered Angus heifer purchased by a Missouri Junior Angus Association member will be nominated for the Missouri Junior Jackpot Show. Any junior wanting his animal nominated for the Jackpot show must notify us.

Any heifer from this sale is eligible for a 25% cash refund of the purchase price if she is a class winner at the 2024 National Junior Heifer Show.

**Transportation:** Private planes can land on the 5,500-foot runway at Mexico, Missouri (573-581-0162), which has a localizer approach for Runway 24. Commuter air service is available to Columbia Regional Airport (573-874-7508) on American Airlines, with connections to DFW and Chicago O'Hare; and on United Airlines with connections to Denver and Chicago O'Hare. The farm is located 103 miles from Lambert St. Louis International, 184 miles from Kansas City International and 46 miles from Columbia Regional Airport.

Shuttle service on Mo-X is available from St. Louis to Kingdom City (1-877-669-4826). We will pick you up from any location if you contact us ahead of arrival date.

**Terms and Conditions:** Cattle will sell according to the Terms and Conditions as recommended by the American Angus Association. Also see page 94. All persons who attend the sale do so at their own risk, and Sydenstricker Genetics assumes no liability, legal or otherwise, for any accidents which may occur.

**Inspection of Cattle:** Cattle can be inspected at any time prior to sale day at the farm.

**Performance Information:** Complete performance information will be available. See pages 31 and 71.

**Updates and videos:** Sale updates will be available prior to sale day at [www.sydgen.com](http://www.sydgen.com). Videos of the bulls selling will also be available there, and at [www.dvauction.com](http://www.dvauction.com).

**On-line Bidding:** The sale will be broadcast on-line with DV Auction. Log on at [www.dvauction.com](http://www.dvauction.com) or call 402-474-5557 with problems or questions.

We are an original seedstock partner in ORigen, Inc., as well as the recipient of the 1997 CERTIFIED ANGUS BEEFTM Seedstock "Commitment to Excellence" Award, and the 2001 BIF Seedstock Produce of the Year Award.

Darla Eggers, Farm Secretary

IT WAS DELIGHTFUL TO HOST A BRIGHT YOUNG GROUP OF AGRICULTURE STUDENTS FROM THE UNIVERSITY OF NEW ENGLAND – AUSTRALIA, WHILE TOURING THE US ON THEIR SEMESTER BREAK.

WE ENJOYED VISITING WITH THE NATIONAL ASSOCIATION OF COUNTY OFFICIALS, ECONOMIC MOBILITY GROUP THIS FALL. REPRESENTATIVES FROM ACROSS THE US WERE ON HAND TO LEARN ABOUT THE IMPORTANT ROLE THAT AGRICULTURE AND THE BEEF INDUSTRY HAS AS AN ECONOMIC ENGINE OUR COMMUNITY.

BLAKE MCDONALD SPENT THE 2025 SEASON REPRESENTING MISSOURI BEEF PRODUCERS FOR THE MISSOURI FARMERS CARE RACE TO THE PLATE.

IT IS ALWAYS A PLEASURE TO HOST THE MO CATTLEMEN'S YOUTH BEEF INDUSTRY TOUR. THESE BRIGHT FUTURE LEADERS HAD A FULL WEEKEND LEARNING ABOUT OPPORTUNITIES IN OUR INDUSTRY.

SAF FOCUS OF ER LEFT QUITE A MARK IN THE ANGUS BREED, AND HE GAVE US A GREAT FRIEND AND PARTNER IN CLIFF EDWARDS.

IT WAS HONOR FOR BEN TO PRESENT CUSTOMER AND FRIEND, BRUCE MERSHON, WITH THE 2024 CATTLEMAN OF THE YEAR AWARD AT THE MISSOURI CATTLEMEN'S CONVENTION THIS PAST JANUARY. ADAM AND JULIE CONOVER RECEIVED THE 2024 LEADERSHIP DEVELOPMENT AWARD FOR THEIR EFFORTS TO SUPPORT AND STRENGTHEN YOUNG FUTURE BEEF INDUSTRY LEADERS.

WE APPRECIATE OUR CUSTOMERS AND THE ABILITY OF OFFER THEM MARKETING OPPORTUNITIES. WATCH FOR DETAILS ON THE 21ST ANNUAL SYDGEN INFLUENCE SALE AT NEW CAMBRIA LIVESTOCK APRIL 14, 2026.

WE ARE ALWAYS THRILLED TO HOST FFA GROUPS AND SHARE OUR EXCITEMENT FOR THE FUTURE OF AGRICULTURE AND BEEF PRODUCTION. COMMUNITY R-VI FFA (PICTURED) ALONG WITH AVA FFA AND TROY FFA VISITED SYDGEN.

BRAZILIAN CATTLEMEN PARTICIPATING IN THE FIRST MU ANIMAL SCIENCE BEEF CAMP VISITED THE FARM TO LEARN ABOUT NUTRITION, MARKETING AND GENETICS IN THE US BEEF INDUSTRY.

FOR THE 2ND YEAR IN A ROW, ADVENT Sired THE TOP RATE OF GAIN STEER AT THE AUDRAIN COUNTY FAIR. AUDREY SHELLABARGER'S CALF WEIGHED IN AT 1400 POUNDS AND GAINED 4.45 POUNDS PER DAY. HER BROTHER ERIC'S ADVENT-SIRED STEER GAINED 4.17 TO PLACE THIRD.

THE STANDS WERE FULL, AND DEMAND WAS STRONG FOR THE FALL TWO-YEAR-OLD PAIRS AND SPRING BRED HEIFERS FROM MERSHON CATTLE AT OUR FALL INFLUENCE SALE.

BEN AND DARLA EGGERS WERE HONORED TO ACCEPT THE TOURISM AWARD FROM THE MEXICO AREA CHAMBER OF COMMERCE. WE ARE GRATEFUL THAT THESE BLACK CATTLE MAKE US A DESTINATION STOP AND FOR ALL THE AREA BUSINESSES THAT WELCOME AND SERVE OUR CUSTOMERS AND FRIENDS WHEN THEY VISIT.
